	General Information of the Manuscript	
	Name of journal: World Journal of Orthopedics	
	Manuscript NO.: 78459	
	Column: Clinical Trials Study	
	Title: Traditional Chinese medicine ointment combined with tuina	
1	therapy in treatment of pain and swelling after total knee	[Y]
	arthroplasty	
	Authors: Liang Xing, Hui-Rong Xu, Qing-Lin Wang, Hua Kong,	
	Hua Zhang, Jing Tian, Ying Ding, Ru-Xin Yang, Lei Zhang and Bo	
	Jiang	
	Reviewer code: 06143754, and 06143764	

Telephone: +1-925-399-1568 **E-mail:** bpgoffice@wjgnet.com

	First decision: 2022-08-21 10:19	
	Editorial Office's Comments	
	Science Editor: Remind Revision at 2022-08-29 08:18	
	Company Editor-in-Chief: I have reviewed the Peer-Review	
	Report, the full text of the manuscript, and the relevant ethics	
	documents, all of which have met the basic publishing requirements	
	of the World Journal of Orthopedics, and the manuscript is	
	conditionally accepted. I have sent the manuscript to the author(s)	
	for its revision according to the Peer-Review Report, Editorial	
	Office's comments and the Criteria for Manuscript Revision by	
	Authors. The title of the manuscript is too long and must be	
	shortened to meet the requirement of the journal (Title: The title	
2	should be no more than 18 words). Authors are required to	F2/ 1
2	provide standard three-line tables, that is, only the top line, bottom	[Y]
	line, and column line are displayed, while other table lines are	
	hidden. The contents of each cell in the table should conform to the	
	editing specifications, and the lines of each row or column of the	
	table should be aligned. Do not use carriage returns or spaces to	
	replace lines or vertical lines and do not segment cell content.	
	Before final acceptance, when revising the manuscript, the author	
	must supplement and improve the highlights of the latest	
	cutting-edge research results, thereby further improving the content	
	of the manuscript. To this end, authors are advised to apply a new	
	tool, the RCA. RCA is an artificial intelligence technology-based	
	open multidisciplinary citation analysis database. In it, upon	

	obtaining search results from the keywords entered by the author,	
	"Impact Index Per Article" under "Ranked by" should be selected to	
	find the latest highlight articles, which can then be used to further	
	improve an article under preparation/peer-review/revision. Please	
	visit our RCA database for more information at:	
	https://www.referencecitationanalysis.com/.	
3	The fixed headings are copied.	[Y]
	The title concisely summarizes the main topic of the study and is	
	not too long (no more than 18 words). Words such as 'exploration',	
4	'research', 'analysis', 'observation', and 'investigation' are avoided.	[Y]
	The title does not start with 'The' and does not include any Arabic	
	numbers or uncommon abbreviations.	
5	A short running title is provided (no more than 6 words).	[Y]
	The authors' full family (sur)names and full/abbreviated first	
6	names are listed on the title page and are consistent with those	[Y]
	listed in the signed BPG Copyright License Agreement form.	
	The 'Author contributions' passage describes the specific	
	contribution(s) made by each author. The author's names are listed	
	in the following format: full family (sur)name followed by	
	abbreviated first and middles names.	
	e.g., "Wang CL and Liang L contributed equally to this work; Wang	
7	CL, Liang L, Fu JF, Zou CC, Hong F and Wu XM designed the	[Y]
	research study; Wang CL, Zou CC, Hong F and Wu XM performed	
	the research; Xue JZ and Lu JR contributed new reagents and	
	analytic tools; Wang CL, Liang L and Fu JF analyzed the data; and	
	Wang CL, Liang L and Fu JF wrote the manuscript. All authors	
	have read and approve the final manuscript."	
	The 'Supported by' statement describes the source(s) of financial	
8	support and includes the corresponding identification number(s)	[Y]

	and program ID(s) if available, and contains no spelling errors.	
9	The 'Corresponding author' passage provides the corresponding author's full first and family (sur)names, abbreviated title (e.g., MD, PhD), affiliated institute's name and complete postal address (including zip code) and e-mail (written in all lowercase), and contains no spelling errors.	[Y]
10	The Manuscript Tracking information (<i>i.e.</i> , Received, Peer review started, First decision, Revised, Accepted, Article in press, and Published online) are provided along with the corresponding editor and date for each item, and contain no spelling errors.	[Y]
11	The Abstract section is formatted according to the article-specific style (structured vs unstructured) and word count thresholds, as follows: Commentary, Frontier, Diagnostic Advances, Medical Ethics, Minireview, Review, Therapeutics Advances, and Topic Highlight: Non-structured abstract that is no less than 200 words. Field of Vision, Case Report and Letter to the Editor: Non-structured abstract that is no less than 150 words. Research articles: Structured abstract with subsections for AIM (no more than 20 words); METHODS (no less than 80 words); RESULTS (no less than 120 words); and CONCLUSION (no more than 26 words).	[Y]
12	The 'Key words' list provides 5-10 keywords that reflect the main content of the study. The first letter of each keyword is capitalized, and each keyword is separated by a semicolon.	[Y]
13	The "citation" contains authors' names and manuscript title. The name of the first author should be typed in bold letters; the family (sur) name of all authors should be typed with the first letter capitalized, followed by their abbreviated first and middle initials.	[Y]

Telephone: +1-925-399-1568 **E-mail:** bpgoffice@wjgnet.com

	For example, an article by Jae Moon Yoon, Ki Young Son, Chun Sick	
	Eom, Daniel Durrance, Sang Min Park will be written as Yoon JM,	
	Son KY, Eom CS, Durrance D, Park SM. Pre-existing diabetes	
	mellitus increases the risk of gastric cancer: A meta-analysis. World J	
	Gastroenterol 2019; In press	
	The 'Core tip' provides a summary (less than 100 words) of the	
	study that outlines the most innovative and important arguments	
14	and core contents of the paper and will serve to effectively attract	[Y]
	readers.	
	The 'INTRODUCTION' section clearly describes the relevant	
	background information for the study. Only the most relevant and	
	current (within the past 5 years) literature is cited, with the	
	exception of rare instances of seminal literature citations. All	
	technical terms and/or abbreviations are explained and/or defined,	
	with the full name of abbreviations given upon first appearance in	
15	the text and the abbreviation presented in parentheses [i.e.,	[Y]
	"computed tomography (CT)"]. First-person pronouns (e.g., 'I',	
	'we') are used appropriately to clearly indicate the work performed	
	by the author(s). When weaknesses of previous studies are	
	described in the text to highlight the innovations related to the	
	current study, the information is presented carefully.	
	The 'MATERIALS AND METHODS' section clearly and accurately	
16	describes all materials and methods used to obtain the data	
	presented in the article and is adequate for a reader to repeat the	[Y]
	study.	
17	The 'RESULTS' section concisely describes the observational and	
	experimental results. Representative data and data that have	
	scientific significance are emphasized. Data is presented in either	[Y]
	the text, a table or figure (<i>i.e.</i> , chart, diagram, graph or image), but is	L ± J
	not repeated among each. Information presented in the tables and	

Telephone: +1-925-399-1568 **E-mail:** bpgoffice@wjgnet.com

figures clearly describes the trends, meaning, and inferences.	
Results described in textual form are accurate, concise and clear.	
Statistical symbols are accurate. Statistical significance is expressed	
as ${}^{\rm a}P$ < 0.05, ${}^{\rm b}P$ < 0.01 (P > 0.05 usually does not need to be denoted).	
If there are other series of P values, ^{c}P < 0.05 and ^{d}P < 0.01 are used,	[Y]
and a third series of P values is expressed as $^{\rm e}P$ < 0.05 and $^{\rm f}P$ < 0.01.	
Statistical data is expressed as mean \pm SD or mean \pm SE.	
The 'DISCUSSION' section (1) describes the main purpose and	
hypothesis of the study; (2) summarizes the most important results;	
(3) illustrates and explains the results (but does not simply repeat	[Y]
the data) and draws conclusions or inferences based on the results;	
(4) points out the limitations of the study and their impact on the	
results, as well as proposes further advice on future research	
topic(s) or direction(s); and (5) describes the theoretical significance	
and practical value of the findings.	
The 'ACKNOWLEDGEMENTS' section expresses gratitude to any	
individuals or organizations for technical support (i.e., providing	
instrumentation, equipment or experimental materials, and/or	[N]
assistance in experimental work), non-technical services (i.e., useful	
inspiration, suggestions, guidance, or review), and/or any other	
auxiliary work.	
The 'ARTICLE HIGHLIGHTS' section provides comments for	
original articles in accordance with the specified format.	[Y]
	as ${}^{a}P$ < 0.05, ${}^{b}P$ < 0.01 (P > 0.05 usually does not need to be denoted). If there are other series of P values, ${}^{c}P$ < 0.05 and ${}^{d}P$ < 0.01 are used, and a third series of P values is expressed as ${}^{c}P$ < 0.05 and ${}^{t}P$ < 0.01. Statistical data is expressed as mean \pm SD or mean \pm SE. The 'DISCUSSION' section (1) describes the main purpose and hypothesis of the study; (2) summarizes the most important results; (3) illustrates and explains the results (but does not simply repeat the data) and draws conclusions or inferences based on the results; (4) points out the limitations of the study and their impact on the results, as well as proposes further advice on future research topic(s) or direction(s); and (5) describes the theoretical significance and practical value of the findings. The 'ACKNOWLEDGEMENTS' section expresses gratitude to any individuals or organizations for technical support ($i.e.$, providing instrumentation, equipment or experimental materials, and/or assistance in experimental work), non-technical services ($i.e.$, useful inspiration, suggestions, guidance, or review), and/or any other auxiliary work. The 'ARTICLE HIGHLIGHTS' section provides comments for

	The 'REFERENCES' section lists the references in the Vancouver	
	style. This style uses Arabic numeral in-text citations based on the	
	order of the first appearance of a source in the text. For citations	
	where the author's name is indicated in the text, a superscript	
	number should be placed following the name (i.e., "Pang et al"). For	
	citations where no author is indicated, a superscript number should	
22	be placed at the end of the sentence. Respective examples are: "Ma ^[1]	[Y]
	reported", "Pan et al ^[2-5] indicated"; "PCR has a high	
	sensitivity ^[6,9] ." No superscript numbers are used when the	
	reference number is described in the text; for example, "The	
	experimental method used has been described in reference [8]." The	
	style of reference citations in tables is the same as that in the text	
	(e.g., Pan et $al^{[2-5]}$, please see reference [8]).	
	Journal references have been verified to ensure that there are no	
	duplicate references and that the PMID numbers are correct. For	
	references not yet included in PubMed: the name of Chinese	
22	journals is spelled out using Chinese Pinyin, with the first letter of	[Y]
23	each word capitalized (e.g., Shijie Huaren Xiaohua Zazhi); the name of	
	journals in other languages are listed according to indexing	
	information retrieved from Google. Book references are presented	
	with all the information relevant to the electronic version.	
24	The number of cited references is appropriate for the article type, as	
	follows:	
	Commentary: no less than 50;	[\]
	Review: no less than 100;	[Y]
	Article: no less than 30/26;	
	Case Report and Letter to the Editor: no less than 1.	
25	The ethics-related statements are provided in accordance with the	
	manuscript type (e.g., Manuscript NoInstitutional review board	[Y]
	statement, Manuscript NoAnimal care and use statement, etc.).	

The names of the peer reviewers and the scientific editor are present at the end of the paper (e.g., P-Reviewer: Hugot D S-Editor: Wang JL). The order and numerical labeling of tables and figures is consistent with their appearance and presentation in the text. Symbols in tables (e.g., +, -, ×, *, *) correctly correspond to the definitions in the footnotes. Only one legend is provided for each multi-panel figure consisting of color graphs, black and white graphs, or line graphs that depicts data of the same theme. For example: Figure 1 Pathological changes in atrophic gastritis tissue before and after treatment. A:; B:; C:; D:; E:; F: Split pictures include flow charts, line graphs, histograms, and graphs including text. Unsplit pictures include meta-analysis diagrams, PCR amplification curves, and survival curves. The author(s) highlighted the changes made to the manuscript according to the peer-reviewers' comments. The responses to the peer-reviewers' comments are consistent with the changes made to the manuscript. The revised manuscript is provided (file name: Manuscript NoReview; e.g., 870-Review). The letter of peer-reviewers' comments is provided (file name: Manuscript NoPeer-reviewers). The response letter is provided (file name: Manuscript NoAnswering reviewers; e.g., 870-Answering reviewers). The related ethics and relevant documents are provided, such as (1) Approved grant application form(s) or funding agency copy of any approval document(s) (file name: Manuscript NoGrant application

	statement); (6) Institutional animal care and use committee	
	approval form or document (file name: Manuscript	
	NoInstitutional animal care and use committee statement), and (7)	
	Signed informed consent form(s) or document(s) (file name:	
	Manuscript NoInformed consent statement).	
	All authors signed the BPG Copyright license agreement form (file	
33	name: Manuscript NoCopyright license agreement; e.g.,	[Y]
	870-Copyright license agreement).	
	The language certificate provided by authors who are non-native	
34	speakers of English meets the BPG requirements (file name:	[Y]
	Manuscript NoLanguage certificate; <i>e.g.</i> , 870-Language certificate).	
	The photos licensed in the Agreement for Use of Personal Photos	
	are consistent with those in the paper (file name: Manuscript	
35	NoAgreement for use of personal photos; e.g., 870-Agreement for	[N]
	use of personal photos).	
	This document (Checklist of Responsibilities for Scientific Editors)	
36	has been saved under the file name: manuscript NoScientific	[Y]
	editor work list (e.g., 870-Scientific editor work list).	
	A CrossCheck investigation (an effective tool for detecting unoriginal	
	content, enabling our editors to preserve the journal's integrity and	
	the authors' copyright) has been performed for the manuscript via	
	the website: http://www.ithenticate.com/. The results document	
37	contains the following information for the manuscript: "Name of	[Y]
	journal", "Manuscript No.", "Columns", "Title" and "Author list".	
	The Figure of the <i>CrossCheck</i> results is saved in JPEG format (.jpg) at	
	1440 × 680 pixel resolution. The PDF of the <i>CrossCheck</i> results has	
	been saved under the file name: manuscript No CrossCheck report	

Telephone: +1-925-399-1568 **E-mail:** bpgoffice@wjgnet.com

	(e.g., 870-CrossCheck report). The Google searches have also been		
	performed to further ensure publication of original content.		
20	The text of the manuscript is typed in Book Antiqua font, 12 pt, with	F2/7	
38	1.5 line spacing.	[Y]	
	The primary responsibilities of our scientific editors include carefully	y checking the	
Dagaga and Hilling	entire manuscript and all accompanying materials for: (1) error	rs in spelling,	
Responsibilities	grammar, punctuation and wording; (2) suitability of tables, figures, f	igure data and	
of scientific	legends; (3) accurate and appropriate presentation of symbols (e.g. +,	-, ×, ÷, %, *) in	
editors	tables and figures; and (4) complete and comprehensive revision of t	he manuscript	
	according to the reviewers' comments.		
	Manuscript reception and registration→Initial review by scientific editor→Peer		
	review \rightarrow End of peer review \rightarrow First round of meeting evaluation \rightarrow To be accepted \rightarrow Revision by the author(s) \rightarrow Second round of meeting evaluation \rightarrow To be		
	accepted/revised/rejected→Final review by the Editor-in-Chief	(final quality	
Publication	control for academic content and language quality)→Final acceptance	e and charging	
process	of publication fee→Language editing→Production→Proofreading	by scientific	
	editor→Proofreading by deputy editor→Final review by Editor-in-C	Chief→Release	
	of online open-access papers in electronic form on the BPG websi	te→Release of	
	online papers on PubMed Central→Delivery of high-quality PDF 1	reprints to the	
	author(s)→End of the publication process.
