Reviewer 1: In this review, author outline the impact of HCC on the MPS, and how HCC reshapes MPS cell phenotype remodeling and the production of associated cytokines and characterize the function and impairment of the MPS in HCC. It is important to illustrate the function of the MPS in the progression of HCC. It provides us with the ideas and direction of liver cancer treatment.

Answer: Thanks very much and I have polish the language all through the paper.

Reviewer 2: A pertinent review A brief description of the normal role of MPS would help in enhancing the article The following maybe added : 1. tto Strauss, P. Rod Dunbar, Adam Bartlett, Anthony Phillips, The immunophenotype of antigen presenting cells of the mononuclear phagocyte system in normal human liver – A systematic review, Journal of Hepatology, Volume 62, Issue 2, 2015, Pages 458-468,

Answer: Thanks very much and I have added the brief description of the normal role of MPS in the introduction section and spelled in red.
