SPECIFIC COMMENTS TO AUTHORS

Dear Authors, Thank you for conducting a very interesting case report entitled "t(4;11) translocation in hyperdiploid de novo adult acute myeloid leukemia: A case report" for possible publication in the esteemed journal "World Journal of Clinical Cases". The manuscript needs major revision because of the following comments: 1. Minor editing and language corrections are necessary. 2. There is no running title. 3. There is no core tip in the manuscript file. 4. Please add another keyword to be 6 in number as per journal style. 5. Please add the objective of the study at the end of the introduction section. 6. Case presentation a. Please add the doses of these drugs (amlodipine and betaproc). b. A reference range for each laboratory test is required. c. I understand that there is only figure 1 with 5 panels (a-e). Please unify the figure with what you mentioned in the text. Besides, panel d is not clear. 7. It is illogical to see all the discussion in one paragraph.
