#### **SPECIFIC COMMENTS TO AUTHORS**

Dear Author , 1. How AIP can be differentiated from the Ductal Ca of Pancreas - add 1 para . 2. In the imaging section - mention regarding finding in USG , CT - Scan , MRI with and without contrast in AIP. 3. In the AI section - details are required on how the Images were taken, processed and diagnosed. Who does the annotation of these images ? 4. Role of IV Steroid Pulse therapy , oral Methyl Prednisolone and Immunosuppressant not mentioned in the management part . 5. Any triggering factors of AIP & Lifestyle modification needs to be added . Thanks

#### **SPECIFIC COMMENTS TO AUTHORS**

This is an interesting narrative review in which the authors summarized epidemiology, diagnosis and treatment of AIP. The paper is well written and the main issue remains the originality. In this regard I would suggest to strongly enlarge the section about artificial intelligence that may be the only real novelty to be described in the paper and might give a reason to have the paper cited. With this in mind I would think to underline this in title and abstract.
