

## Format for ANSWERING REVIEWERS

February 10, 2014

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 7939-edited.doc).

**Title:** A systematic review of noninvasive treatments to arrest dentin non-cavitated caries lesions

**Author:** Isauemi Vieira de Assunção, Giovanna de Fátima Alves da Costa, Boniek Castillo Dutra Borges

**Name of Journal:** *World Journal of Clinical Cases*

**ESPS Manuscript NO:** 7939

The manuscript has been improved according to the suggestions of reviewers:

- To briefly expand the introduction section in order to further clarify and strengthen the relevance of the present review to the reader.

*The introduction was expanded.*

- To include a search flow diagram.

*We included the search flow diagram.*

- To improve the discussion of results: for example, briefly discussing limitations (e.g. use of articles only in English) and their possible impact in the observed results.

*We included this discussion: "One should consider that only papers published in English language were included in this systematic review. In fact, the most relevant papers are published in English language since it can be read worldwide. For this reason, we believe that data loss due to the exclusion of papers wrote in other languages could not generate negative impact to the present results."*

- To briefly expand the conclusion section, providing an integrated conclusion.

*The conclusion section was modified.*

Sincerely yours,

Boniek Castillo Dutra Borges
