Respected Sir/Madam

Reference#: 80428

Title: Systemic Treatment for Unresectable Hepatocellular Carcinoma (uHCC)

I am hereby giving points response to your comments;

Reviewer #1

Comment #1: Excellent article. Small grammatical correction are suggested, please see the attached file for the same. Best luck.

Author answer: Thank you very much for your comment. I already corrected a relevant grammar as your suggestion (highlighted texts). For “All treatment choices in this study were made by the patient's attending physician.”, the authors confirm this sentence.

Reviewer #2

Comment #1: This review gives a detailed and systematic summary of the current systematic treatment schemes for uHCC. It lists all treatment strategies and the clinical research behind them, which is more authentic and reliable. The topic of this article emphasizes the systematic treatment of uHCC. At present, many patients with uHCC are treated with local therapy combined with systemic therapy, which has also achieved good results. Perhaps this article can add part of the content of systemic treatment combined with local treatment.

Author answer: Thank you very much for your comment. I've already explored again about a local therapy combined with systemic therapy and found that most of the articles were included a small number of the patients and the clinical outcomes were very varied.
