Dear editor of World Journal of Meta-analysis

Greetings

We are very happy to inform you that all the respected reviewer's comments were accepted and addressed as follows:

Reviewer 1:

- The pathology, classifications, and complications were included in the background.
- We addressed the valuable suggestion of the most recent insight about the topic.
- The included citation has been included in the text.

Reviewer 2:

Although the esteemed reviewer recognize the importance of your research question. However, the suggestions are not specific and mostly addressed by the above reviewer comments.

Best regards
