Dear editor,

Please find attached files of revised manuscript in word format

**Title: Application of a hospital-community-family trinity rehabilitation nursing model combined with motor imagery therapy in patients with cerebral infarction**

**Name of Journal:** World Journal of Clinical Cases

**Manuscript NO:** 81455

First of all, thank you for your careful guidance of this article. Revision has been made according to the suggestions of the reviewer:

**Reviewer: 06086582**

This is an interesting study of application of a hospital-community-family rehabilitation nursing model combined with motor imagery therapy in cerebral infarction patients. The study is well designed and the results are interesting. The manuscript requires a minor editing. Some minor language polishing should be corrected. The tables should be edited.

**Reviewer: 06086600**

In this study, the authors explored the application value of a combination of the hospital community family trinity rehabilitation nursing model and motor imagery therapy in patients with cerebral infarction, in terms of its effects on balance ability, motor ability, and quality of life of these patients. The study is well performed. The results are interesting and well discussed. The reviewer recommends to accept this study after a minor editing. Thank you.

After receiving the comments, we read the article carefully and found some small loopholes in the language of the article and made modifications and new language proofs are also provided. I edited the tables.

According to the suggestion, we changed the relevant description.

Thank you again for publishing our manuscript in the World Journal of Clinical Cases.

Sincerely Yours,

Fu-De Liu
