| | Editorial Office's Comments | |
| | Science Editor: The edited manuscript has been sent to authors for | |
| | proofreading. | |
| | Company Editor-in-Chief: I have reviewed the Peer-Review | |
| | Report, full text of the manuscript, and the relevant ethics | |
| | documents, all of which have met the basic publishing requirements | |
| | of the World Journal of Clinical Cases, and the manuscript is | |
| | conditionally accepted. I have sent the manuscript to the author(s) | |
| | for its revision according to the Peer-Review Report, Editorial | |
| | Office's comments and the Criteria for Manuscript Revision by | |
| | Authors. Authors are required to provide standard three-line | |
| 2 | tables, that is, only the top line, bottom line, and column line are | [2/] |
| 2 | displayed, while other table lines are hidden. The contents of each | [Y] |
| | cell in the table should conform to the editing specifications, and the | |
| | lines of each row or column of the table should be aligned. Do not | |
| | use carriage returns or spaces to replace lines or vertical lines and | |
| | do not segment cell content. Before final acceptance, when | |
| | revising the manuscript, the author must supplement and improve | |
| | the highlights of the latest cutting-edge research results, thereby | |
| | further improving the content of the manuscript. To this end, | |
| | authors are advised to apply a new tool, the RCA. RCA is an | |
| | artificial intelligence technology-based open multidisciplinary | |
| | citation analysis database. In it, upon obtaining search results from | |
| | the keywords entered by the author, "Impact Index Per Article" | |

Telephone: +1-925-399-1568 **E-mail:** bpgoffice@wjgnet.com

| | under "Ranked by" should be selected to find the latest highlight | |
|---|---|-----|
| | articles, which can then be used to further improve an article under | |
| | preparation/peer-review/revision. Please visit our RCA database | |
| | for more information at: | |
| | https://www.referencecitationanalysis.com/. | |
| 3 | The fixed headings are copied. | [Y] |
| | The title concisely summarizes the main topic of the study and is | |
| | not too long (no more than 18 words). Words such as 'exploration', | |
| 4 | 'research', 'analysis', 'observation', and 'investigation' are avoided. | [Y] |
| | The title does not start with 'The' and does not include any Arabic | |
| | numbers or uncommon abbreviations. | |
| 5 | A short running title is provided (no more than 6 words). | [Y] |
| | The authors' full family (sur)names and full/abbreviated first | |
| 6 | names are listed on the title page and are consistent with those | [Y] |
| | listed in the signed BPG Copyright License Agreement form. | |
| | The 'Author contributions' passage describes the specific | |
| | contribution(s) made by each author. The author's names are listed | |
| | in the following format: full family (sur)name followed by | |
| | abbreviated first and middles names. | |
| | e.g., "Wang CL and Liang L contributed equally to this work; Wang | |
| 7 | CL, Liang L, Fu JF, Zou CC, Hong F and Wu XM designed the | [Y] |
| | research study; Wang CL, Zou CC, Hong F and Wu XM performed | |
| | the research; Xue JZ and Lu JR contributed new reagents and | |
| | analytic tools; Wang CL, Liang L and Fu JF analyzed the data; and | |
| | Wang CL, Liang L and Fu JF wrote the manuscript. All authors | |
| | have read and approve the final manuscript." | |
| | The 'Supported by' statement describes the source(s) of financial | |
| 8 | support and includes the corresponding identification number(s) | [N] |
| | and program ID(s) if available, and contains no spelling errors. | |
| | | |

Telephone: +1-925-399-1568 **E-mail:** bpgoffice@wjgnet.com

| | The 'Corresponding author' passage provides the corresponding | |
|----------|---|------|
| | author's full first and family (sur)names, abbreviated title (e.g., MD, | |
| 9 | PhD), affiliated institute's name and complete postal address | [Y] |
| | (including zip code) and e-mail (written in all lowercase), and | |
| | contains no spelling errors. | |
| | The Manuscript Tracking information (i.e., Received, Peer review | |
| 10 | started, First decision, Revised, Accepted, Article in press, and | [1/] |
| 10 | Published online) are provided along with the corresponding editor | [Y] |
| | and date for each item, and contain no spelling errors. | |
| | The Abstract section is formatted according to the article-specific | |
| | style (structured vs unstructured) and word count thresholds, as | |
| | follows: | |
| | Commentary, Frontier, Diagnostic Advances, Medical Ethics, | |
| | Minireview, Review, Therapeutics Advances, and Topic Highlight: | |
| 44 | Non-structured abstract that is no less than 200 words. | 5.0 |
| 11 | Field of Vision, Case Report and Letter to the Editor: | [Y] |
| | Non-structured abstract that is no less than 150 words. | |
| | Research articles: Structured abstract with subsections for AIM (no | |
| | more than 20 words); METHODS (no less than 80 words); RESULTS | |
| | (no less than 120 words); and CONCLUSION (no more than 26 | |
| | words). | |
| | The 'Key words' list provides 5-10 keywords that reflect the main | |
| 12 | content of the study. The first letter of each keyword is capitalized, | [Y] |
| | and each keyword is separated by a semicolon. | |
| | The "citation" contains authors' names and manuscript title. The | |
| | name of the first author should be typed in bold letters; the family | |
| 13 | (sur) name of all authors should be typed with the first letter | [V] |
| 13 | capitalized, followed by their abbreviated first and middle initials. | [Y] |
| | For example, an article by Jae Moon Yoon, Ki Young Son, Chun Sick | |
| | Eom, Daniel Durrance, Sang Min Park will be written as Yoon JM, | |

| | The 'Core tip' provides a summary (less than 100 words) of the | |
| 14 | study that outlines the most innovative and important arguments | D/I |
| 14 | and core contents of the paper and will serve to effectively attract | [Y] |
| | readers. | |
| | The 'INTRODUCTION' section clearly describes the relevant | |
| | background information for the study. Only the most relevant and | |
| | current (within the past 5 years) literature is cited, with the | |
| | exception of rare instances of seminal literature citations. All | |
| | technical terms and/or abbreviations are explained and/or defined, | |
| | with the full name of abbreviations given upon first appearance in | |
| 15 | the text and the abbreviation presented in parentheses [i.e., | [Y] |
| | "computed tomography (CT)"]. First-person pronouns (e.g., 'I', | |
| | 'we') are used appropriately to clearly indicate the work performed | |
| | by the author(s). When weaknesses of previous studies are | |
| | described in the text to highlight the innovations related to the | |
| | current study, the information is presented carefully. | |
| | The 'MATERIALS AND METHODS' section clearly and accurately | |
| | describes all materials and methods used to obtain the data | |
| 16 | presented in the article and is adequate for a reader to repeat the | [Y] |
| | study. | |
| | The 'RESULTS' section concisely describes the observational and | |
| | experimental results. Representative data and data that have | |
| | scientific significance are emphasized. Data is presented in either | |
| 17 | the text, a table or figure (<i>i.e.</i> , chart, diagram, graph or image), but is | [Y] |
| | not repeated among each. Information presented in the tables and | |
| | figures clearly describes the trends, meaning, and inferences. | |
| | Results described in textual form are accurate, concise and clear. | |

| | Statistical symbols are accurate. Statistical significance is expressed | |
|----|---|------|
| | as ${}^{a}P$ < 0.05, ${}^{b}P$ < 0.01 (P > 0.05 usually does not need to be denoted). | |
| 18 | If there are other series of P values, $^{c}P < 0.05$ and $^{d}P < 0.01$ are used, | [Y] |
| | and a third series of P values is expressed as $^{\rm e}P$ < 0.05 and $^{\rm f}P$ < 0.01. | |
| | Statistical data is expressed as mean \pm SD or mean \pm SE. | |
| | The 'DISCUSSION' section (1) describes the main purpose and | |
| | hypothesis of the study; (2) summarizes the most important results; | |
| | (3) illustrates and explains the results (but does not simply repeat | |
| 10 | the data) and draws conclusions or inferences based on the results; | n a |
| 19 | (4) points out the limitations of the study and their impact on the | [Y] |
| | results, as well as proposes further advice on future research | |
| | topic(s) or direction(s); and (5) describes the theoretical significance | |
| | and practical value of the findings. | |
| | The 'ACKNOWLEDGEMENTS' section expresses gratitude to any | |
| | individuals or organizations for technical support (i.e., providing | |
| 20 | instrumentation, equipment or experimental materials, and/or | [Y] |
| 20 | assistance in experimental work), non-technical services (i.e., useful | |
| | inspiration, suggestions, guidance, or review), and/or any other | |
| | auxiliary work. | |
| 21 | The 'ARTICLE HIGHLIGHTS' section provides comments for | [5/] |
| 21 | original articles in accordance with the specified format. | [Y] |
| 22 | The 'REFERENCES' section lists the references in the Vancouver | |
| | style. This style uses Arabic numeral in-text citations based on the | |
| | order of the first appearance of a source in the text. For citations | |
| | where the author's name is indicated in the text, a superscript | |
| | number should be placed following the name (i.e, "Pang et al"). For | [Y] |
| | citations where no author is indicated, a superscript number should | |
| | be placed at the end of the sentence. Respective examples are: "Ma ^[1] | |
| | reported", "Pan et al ^[2-5] indicated"; "PCR has a high | |
| | sensitivity ^[6,9] ." No superscript numbers are used when the | |

| | reference number is described in the text; for example, "The experimental method used has been described in reference [8]." The style of reference citations in tables is the same as that in the text (e.g., Pan et al ^[2-5] , please see reference [8]). | |
|----|---|-----|
| 23 | Journal references have been verified to ensure that there are no duplicate references and that the PMID numbers are correct. For references not yet included in PubMed: the name of Chinese journals is spelled out using Chinese Pinyin, with the first letter of each word capitalized (e.g., Shijie Huaren Xiaohua Zazhi); the name of journals in other languages are listed according to indexing information retrieved from Google. Book references are presented with all the information relevant to the electronic version. | [Y] |
| 24 | The number of cited references is appropriate for the article type, as follows: Commentary: no less than 50; Review: no less than 100; Article: no less than 30/26; Case Report and Letter to the Editor: no less than 1. The ethics-related statements are provided in accordance with the | [Y] |
| 25 | manuscript type (<i>e.g.</i> , Manuscript NoInstitutional review board statement, Manuscript NoAnimal care and use statement, <i>etc.</i>). | [Y] |
| 26 | The names of the peer reviewers and the scientific editor are present at the end of the paper (<i>e.g.</i> , P-Reviewer: Hugot D S-Editor: Wang JL). | [Y] |
