JOURNAL EDITOR-IN-CHIEF (ASSOCIATE EDITOR) COMMENTS TO AUTHORS

I have gone through the submitted documents and everything looks in order. But please double check that at least one of the two peer reviewers was a computational biologist, biochemist, pharmacist or computation biological scientist which was not possible to verify for me from the names. If yes, it can be accepted for publication but if not, this manuscript must need to be reviewed by a computations biological scientist before making a final decision.
