

This document certifies that the manuscript

DEEP BRAIN STIMULATION FOR AUTISM SPECTRUM DISORDER: A MINIREVIEW

prepared by the authors

Stefano Marini et al.

was formatted by highly qualified professionals at American Journal Experts (AJE), who modified the page layout, text formatting, headings, title page, image placement, citations, references, and tables to meet the guidelines of *World Journal of Psychiatry*.

This certificate was issued by AJE on **December 22, 2022** and may be verified by contacting the Support team at support@aje.com.

Neither the research content nor the authors' intentions were altered in any way during the formatting process. Documents receiving this certification have been formatted to meet guidelines related to page layout, text formatting, headings, title page, image placement, and citations and references of the authors' target journal. The formatting team also indicated if the authors needed to revise the paper so that the title, running head, abstract, main text, and figure legends comply with the journal's word count restrictions. However, the authors have the ability to accept or reject our suggestions and changes. If you have any questions or concerns about this formatted document, please contact AJE at support@aje.com.
