JOURNAL EDITOR-IN-CHIEF'S REVIEW REPORT

Name of journal: World Journal of Stem Cells

Manuscript NO: 82507

Title: Extracellular vesicles: Emerged as a promising strategy for regenerative medicine

Journal Editor-in-Chief (Associate Editor): Shengwen Calvin Li

Country/Territory: United States

Editorial Director: Jia-Ping Yan

Date accepted review: 2023-03-13 05:00

Date reviewed: 2023-03-13 05:41

Review time: 1 Hour

<input type="checkbox"/> Grade E: Poor	<input type="checkbox"/> Grade D: Rejected	<input type="checkbox"/> Major revision

JOURNAL EDITOR-IN-CHIEF (ASSOCIATE EDITOR) COMMENTS TO AUTHORS

I suggest changing the title from "Extracellular vesicles: A novel cell-free strategy for regenerative medicine" to "Extracellular vesicles: emerged as a promising strategy for regenerative medicine" - which better reflects the content of the manuscript. The authors insightfully pointed out that research is needed to optimize the isolation, characterization, and delivery of EVs for clinical use. The heterogeneity of EVs is an important consideration that must be addressed for their successful clinical application. An additional table should be generated from summarizing the website of <http://clinicaltrials.gov> -- ClinicalTrials.gov is a database of privately and publicly funded clinical studies conducted around the world.
