

*Reviewer #1:*

*Scientific Quality: Grade B (Very good)*

*Language Quality: Grade B (Minor language polishing)*

*Conclusion: Accept (General priority)*

*Specific Comments to Authors: It is well written review article introduction is adequate discussion needs to be concise and to the point no conclusion written clearly you can make a summary table for its use and benefits*

*Response: We have made some revision and separated the conclusion and discussion accordingly. These changes will not affect the content and framework of the paper. Hence, we don't list the changes, but the revised document is marked in red. We sincerely thank the reviewers for their enthusiastic work and hope that the corrections are approved.*

*Reviewer #2:*

*Scientific Quality: Grade C (Good)*

*Language Quality: Grade B (Minor language polishing)*

*Conclusion: Accept (General priority)*

*Specific Comments to Authors: Manuscript ID: 82798 Manuscript Title: The effect of resveratrol in gestational diabetes mellitus and its complications: a review Manuscript ID: 82798 Manuscript Title: The effect of resveratrol in gestational diabetes mellitus and its complications: a review Dear authors, In order to contribute to the improvement of the manuscript, some suggestions are proposed according to the Guideline for review:*

*1. Please note that the manuscript must be prepared using 12 pt Book Antiqua font. Do not use superscript numbers or symbols to identify the authors' affiliation and corresponding author; check the topics, subtopics and reference formatting. Please, see the journal guideline;*

*Response: Thank you for your correction. In our revised manuscript, the above questions have been changed according to the journal guide.*

*2. ORCID number of the authors is required;*

*Response: Thanks for your suggestion. We have added the ORCID number of corresponding author after the author's introduction.*

*3. The core tip, the running title and key words are absent;*

*Response: Thanks for your comments. We have added the core tip and running title in the revised manuscript.*

*4. Provides the abbreviation before using it for the first time (see abstract – RSV, GMD).*

*Response: Thank you for your careful reading. We have explained the first abbreviations of RSV, GMD, etc.*

*5. Please check the mistakes typing words;*

*Response: Thank you for your reminding. We have checked the article to ensure the correctness of the text.*

*6. Check the scientific names so that they are all in italic.*

Response: Thank you for reminding us. The scientific names have been changed all in italic.
