

Biostatistics review statement

Athens, 25/01/2023

Name of Journal: *World Journal of Clinical Cases*

Manuscript NO: 83454

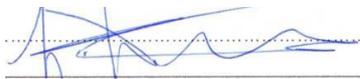

Manuscript Type: Prospective Study

Incidence and peri-operative risk factors for development of acute kidney injury in patients after cardiac surgery

This is to declare that the above study has been reviewed by the co-author Professor Serafim Nanas who has been trained in Clinical Epidemiology at the Northwestern University, Chicago, USA. Professor Serafim Nanas has found the statistical methods and techniques appropriate for the research study.

Sincerely,

Stavros Dimopoulos
