

Dear editor,

We appreciate the opportunity to contribute to your journal.

Recently, I have engaged a Native English Speaker to revise the grammar and content of my article (**Where is the optimal plane to mobilize the anterior rectal wall in female patients undergoing total mesorectal excision?**). I hope this will on the meeting of your requirements. If there still need changes to be made, I will ask for help from a suitable editing company to continue editing to meet your requirements. which is under consideration for publication in your journal.

Best wishes,

Shaotang Li
