Dear Editor,

Please find enclosed the edited manuscript in Word format (ESPS Manuscript No.8391-Review.doc).

Title: The implication of miRNAs for inflammatory bowel disease treatment: systematic review

Author: Wei-Xu Chen, Li-Hua Ren, Rui-Hua Shi

Name of Journal: *World Journal of Gastrointestinal Pathophysiology*

ESPS Manuscript NO: 8391

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

The abstract of this manuscript has more than 200 words after revision.

2 Revision has been made according to the suggestions of the reviewer

In order to make the manuscript more readable, we incorporate one table in the manuscript summarizing the altered miRNAs involved in IBD and their potential role in pathophysiology. The table has been put at the end of the article.

Thank you again for publishing our manuscript in the *World Journal of Gastrointestinal Pathophysiology*.

Sincerely yours,
