

PEER-REVIEW REPORT

Name of journal: *World Journal of Clinical Cases*

Manuscript NO: 84511

Title: Low-dose Immunotherapy as a potentiator to increase the response with Neo-Adjuvant Chemotherapy in Oral Cancers

Provenance and peer review: Invited Manuscript; Externally peer reviewed

Peer-review model: Single blind

Reviewer's code: 05122811

Position: Peer Reviewer

Academic degree: DDS, MSc

Professional title: Associate Professor

Reviewer's Country/Territory: Iran

Author's Country/Territory: India

Manuscript submission date: 2023-03-17

Reviewer chosen by: Geng-Long Liu

Reviewer accepted review: 2023-04-08 05:21

Reviewer performed review: 2023-04-16 07:26

Review time: 8 Days and 2 Hours

SPECIFIC COMMENTS TO AUTHORS

Dear authors While appreciating your efforts, it is necessary to mention that: 1.In the "Keywords" section, please delete "NACT". In addition, it is better to write "Keywords" in alphabetical order. 2.The "Abstract" of the article is written exactly the same as the "Introduction". Please correct. 3.It is better to remove the title "LIMITATIONS" and the text you wrote for it, without a special title, comes in a paragraph. 4.If possible, enter one or more newer references (2022 and 2023). Good luck

SPECIFIC COMMENTS TO AUTHORS

Immunotherapy is a hot topic for cancer therapy. The suggestion of using fixed low-dose immunotherapy agents as a potentiator in standard neoadjuvant chemotherapy regimens for oral cancer is an interesting proposition. Further research is needed to explore the role of immunotherapy in the comprehensive treatment of advanced oral cancer.
