Dear Editor,

Title: Proton Beam Therapy for Locally Advanced Lung Cancer: A Review

Author: Steven Eric Schild, William R. Rule Jonathan B. Ashman, Sujay A. Vora, Sameer R. Keole, Aman Anand, Wei Liu, Martin Bues

Name of Journal: *World Journal of Clinical Oncology*

ESPS Manuscript NO: 8479

The 2 reviewers had no specific suggestions. I did make all the corrections requested by the editor. These changes are highlighted. The running title was added. A summary of less than 100 words was added. The reference numbers are now superscript. The figure legend has been edited for clarity. More detail is given and each figure is lettered. It is important to have the figures laid out as they are so the reader can compare the photon plans shown on the left side to the proton plans at the right side. I believe it is clear for the readers. Hopefully, you agree.

Thank you again for publishing our manuscript in the *World Journal of Clinical Oncology*

Sincerely yours,

Steven E. Schild
