## PEER-REVIEW REPORT

**Name of journal:** *World Journal of Meta-Analysis*

**Manuscript NO:** 84914

**Title:** A review of history, origin, transmission, genome structure, replication, epidemiology, pathogenesis, clinical features, diagnosis, and treatment of COVID-19

**Provenance and peer review:** Invited Manuscript; Externally peer reviewed

**Peer-review model:** Single blind

**Reviewer's code:** 04907343

**Position:** Peer Reviewer

**Academic degree:** MD, PhD

**Professional title:** Doctor, Occupational Physician

**Reviewer's Country/Territory:** Spain

**Author's Country/Territory:** India

**Manuscript submission date:** 2023-04-04

**Reviewer chosen by:** AI Technique

**Reviewer accepted review:** 2023-04-12 16:29

**Reviewer performed review:** 2023-04-21 19:39

**Review time:** 9 Days and 3 Hours

## SPECIFIC COMMENTS TO AUTHORS

The authors have presented a well-written summary of the COVID-19 disease. The work is well-structured, easy to read and provides a good review of the literature as well as a summary of the pathology of COVID-19. They include information on COVID-19 history, origin, transmission, genome structure, replication, epidemiology, pathogenesis, clinical features, diagnosis, and treatment strategies. However, in the current date of April 2023, it appears that the work is not novel and does not provide enough new information. Therefore, I do not believe that the quality and novelty of the work is sufficient for publication in the journal. I recommend that the authors update the document, particularly the bibliographic references, and introduce more current data to improve the text.

## SPECIFIC COMMENTS TO AUTHORS

Comments on manuscript Thanks for giving me to review the manuscript by By Mokhria RK et al. The manuscript summarizes various characteristics of COVID-19, which has some value for the comprehensive management of COVID-19. But there are some pitflaws that need to be modified. 1. The abstract is not focused and concise enough. 2.It might be better to express some contents of COVID-19 in table, such as PREVENTION and TREAMT PROGRESSES.
