

Title: Epidemiology of Shoulder Dislocations Presenting to United States Emergency
Departments: An Updated Ten-Year Study
Manuscript ID: 85870

Informed Consent Statement

All data used in the following manuscript are deidentified and available online through the US Consumer Product Safety Commission. All data can be accessed at the following website:
<https://www.cpsc.gov/Research--Statistics/NEISS-Injury-Data>. No references to patient files were used to conduct this study.

Given that no patient data were accessed and that no human subjects were involved in this research, informed consent was not required.

Very Respectfully,

The Authors
