The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

We appreciate the time and effort the reviewers took in making the manuscript “Chemotherapy advanced in locally advanced head and neck cancer” a better publication. With few exceptions we included all of the reviewer’s comments into the new version. One of the only times where we were not able to change the manuscript as requested was in combining outcome tables for the various chemotherapy induction studies as they all reported different outcomes making a combined summary table less useful.

Thanks again for taking the time to review our work
