## SPECIFIC COMMENTS TO AUTHORS

I would like to congratulate the authors on their quality clinical and research work. The rarity of Abernethy malformations makes them challenging and interesting.

#### SPECIFIC COMMENTS TO AUTHORS

interesting case with interesting learning outcome. However the manuscript needs writing as case report in paragraphs not as when documenting patient history in clinical notes. My suggestion is to rewrite the main body of case report as per journals requirement. Also needs some polishing of English language. Otherwise clinically it is an interesting case report.
