

Name of journal: *World Journal of Gastrointestinal Surgery*

Manuscript Type: SYSTEMATIC REVIEW

Hepatobiliary tuberculosis in the developing world: A systematic review.

Esguerra-Paculan MJA *et al.* Hepatobiliary tuberculosis.

Ma Jenina Angela Esguerra-Paculan, Jonathan Soldera

Ma Jenina Angela Esguerra-Paculan, Acute Medicine, University of South Wales, Cardiff
CF37 1DL, United Kingdom

Jonathan Soldera, Acute Medicine and Gastroenterology, University of South Wales, Cardiff
CF37 1DL, United Kingdom

Soldera J contributed to the statistical analysis. As this article is a systematic review without a meta-analysis component, a straightforward frequency and means analysis was performed. The involvement of a professional statistician was deemed unnecessary, considering Soldera's extensive expertise in biomedical statistics as a researcher.
