

To Editors-in-Chief

World Journal of Nephrology

20<sup>th</sup> July 2023

This is to certify that the documents below do not apply to my invited manuscript titled 'Bleeding Complications After Percutaneous Kidney Biopsies – Nationwide Experience from Brunei Darussalam'.

- 1) Biostatistics Review Certificate - I did not involve a biostatistician as I did the statistical analysis all by myself.
- 2) Signed Informed Consent Forms or Documents - There was no consent involved and our IRB has granted waiver of consent.
- 3) Non-Native Speakers of English Editing Certificate - The study was conducted in English.

I appreciate your kind consideration in publication of our study. Thank you.

Yours sincerely,

\_\_\_\_\_

Dr Lim Chiao Yuen

Consultant Nephrologist and Head of Department

Ministry of Health
