

Name of Journal: World Journal of Diabetes

Manuscript type: ORIGINAL ARTICLE

Basic Study

Diabetes mellitus and prostate cancer risk: a mendelian randomization analysis

DM and PCa risk

Jian-xu Yuan, Qing Jiang, Sheng-jie Yu

Answering Reviewers

Reviewer #1

Thank you for your review. We will continue to conduct in-depth research in related fields and look forward to publishing our study as soon as possible.

Reviewer #2

Thank you for your review. We have made the 49 SNPs obtained from our research into a table and added explanations on MR in corresponding sections, which have been highlighted in yellow. The entire text has been polished and obtained corresponding certificates.

Science editor

Thank you for your review. This study does not include any animal or human experiments, therefore it is not applicable for ethical review. We have made a statement at the end of the article.

Company editor-in-chief

Thank you for your review. Biostatistics Review Certificate has been uploaded.
