SPECIFIC COMMENTS TO AUTHORS

Its a nice case. Would suggest few commenrs On line 93 P2 hyperthyroidism seems to be an error Line 122-124 can be simplified Afer line 130-Need to mention what happen to the patient, what procedure you did, post op course and outcome Also need to mention other modality of therapies as combined heart lung transplant, though may not be applicable in patients with DS Place the arrow in the figures in the area of significance
