To,  
The Baishideng Publications

Hi,

I am writing this in relation to the submission of the paper "Outcomes and efficacy of MRI-compatible sacral nerve stimulator for management of fecal incontinence: a multi-institutional study".

Our statistics were not the most complex ones, so we have done the statistics as authors. So, we have not consulted the statistics department. We are confident that our data analysis is up to the highest standards.

Thanks,

J
