

Answer to the Editor

Manuscript number 88817 "Metabolic Disease And The Liver: A Review"

Dear Editor Team,

According to specific comments of Reviewers (number ID 00052899), here is our answer:

1. ***Diabetes Mellitus type 2 is not a commonly used nomenclature. Type 2 diabetes is commended to be used.***

Thank you for your comment and we apologize for the spelling error. The terminology has been completely adjusted.

2. ***Some grammar mistakes should be corrected and the written language should be modified.***

We thank you for observing and the translation was reviewed by a professional specialized in the health field. We hope it is now adequate.

We appreciate all the comments.

Dr. Joveleviths D *et al*
