

INSTITUTIONAL REVIEW BOARD
MEDICOVER HOSPITALS, NAVI MUMBAI

Title of Project: Liver Transplantation for Hepatocellular Carcinoma in India: Are We Ready for 2040?

Principal Investigator: Dr. Hirak Pahari

Type of Study: Survey; Observational Study

Type of Data: Retrospective

Duration of Study: 3 months

Date of Approval: 1st December 2022

Address:

Department of Liver Transplantation and Hepatobiliary Surgery,
Medicover Hospital, Navi Mumbai,
Maharashtra, Pin-410210, India.
Email: ms.nmh@medicoverhospitals.in

Decision:

Your request for exemption from formal IRB review has been approved, as this is a survey of different treatment teams with no direct patient contact and no identifiable patient information. Since the data is also retrospective and the study is observational in nature, informed consent can be waived in this respect. You are still responsible for adhering to the ethical guidelines in your work. If the project changes in any way, please notify the IRB Chair, as exemption may no longer apply.
