

March 10, 2014

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: ESPS 8887-review.doc).

**Title: Umbilical Cord Fibroblasts: Could They Be Considered As Mesenchymal Stem Cells?**

**Author:** Mustapha Zeddou, Biserka Relic, Michel G Malaise

**Name of Journal:** *World Journal of Stem Cells*

**ESPS Manuscript NO:** 8887

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

(Reviewer 1)

- As proposed by the reviewer, an English native speaker has corrected the manuscript.
- The major differences and similarities of UC-MSC and BM-MSC are now summarized in a single table (Table 1).
- "Nestin-GFP reporter mousse" is corrected to "Nestin-GFP transgenic mouse" (Page 3, second paragraph, line 3).

(Reviewer 2)

- A table comparing the immunophenotype and the proliferation potential of BM-MSC versus UC-MSC is now added to the manuscript (Table 1).

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Stem Cells*.

Sincerely yours,

Mustapha Zeddou, PhD
