

To,
The editor
World Journal of Clinical Cases

Dear Sir/Madam

Attached please find the reviewers comments and response to the reviewers comments

Reviewer 1:

This article provides a forward-looking analysis and prediction of the current application status and prospects of artificial intelligence in the field of sleep medicine. It also provides unique insights into the problems existing in artificial intelligence in this field, which can provide useful research ideas for scholars and researchers in related fields.

Response: We thank the reviewer for their positive comment

EIC Comment: Is figure original.

Response: Figure is original, and response has been added in the figure ppt as requested
