Item No.	Specific items for verification	Yes=[Y]
		No= [N]
	General Information of the Manuscript	
	Name of journal: World Journal of Gastrointestinal Endoscopy	
1	Manuscript NO.: 89039	[Y]
	Column: Observational Study	
	Title: Could near focus endoscopy, narrow-band imaging, and	

	acetic acid improve the visualization of microscopic features of	
	stomach mucosa?	
	Authors: Admir Kurtcehajic, Enver Zerem, Tomislav Bokun, Ervin	
	Alibegovic, Suad Kunosic, Ahmed Hujdurovic, Amir Tursunovic	
	and Kenana Ljuca	
	Reviewer code: 04135204	
	First decision: 2023-12-25 04:26	
	Editorial Office's Comments	
	Science Editor: There are two issues need to address, please	
	address in a week. 1. Please provide the decomposable figure of	
	figures, whose parts are all movable and editable, organize them	
	into a PowerPoint file, and submit as "Manuscript NoFigures.ppt"	
	on the system, we need to edit the text in the figures. All submitted	
	figures, including the text contained within the figures, must be	
	editable. Please provide the text in your figure(s) in text boxes. 2.	
2	Please complete the STROBE file, and mark specific page number in	[\]
2	the STROBE file.	[Y]
	Company Editor-in-Chief: I recommend the manuscript to be	
	published in the World Journal of Gastrointestinal Endoscopy. The	
	2023 Edition of Journal Citation Reports® cites the 2022 impact	
	factor (IF) for WJGE as 2.0. When revising the manuscript, it is	
	recommended that the author supplement and improve the	
	highlights of the latest cutting-edge research results, thereby further	
	improving the content of the manuscript. To this end, authors are	
	advised to apply PubMed, or a new tool, the RCA, of which data	

	source is PubMed. RCA is a unique artificial intelligence system for	
	citation index evaluation of medical science and life science	
	literature. In it, upon obtaining search results from the keywords	
	entered by the author, "Impact Index Per Article" under "Ranked	
	by" should be selected to find the latest highlight articles, which can	
	then be used to further improve an article under	
	preparation/peer-review/revision. Please visit our RCA database	
	for more information at:	
	https://www.referencecitationanalysis.com/, or visit PubMed at:	
	https://pubmed.ncbi.nlm.nih.gov/.	
3	The fixed headings are copied.	[Y]
	The title concisely summarizes the main topic of the study and is	
	not too long (no more than 18 words). Words such as 'exploration',	
4	'research', 'analysis', 'observation', and 'investigation' are avoided.	[Y]
	The title does not start with 'The' and does not include any Arabic	
	numbers or uncommon abbreviations.	
5	A short running title is provided (no more than 6 words).	[Y]
	The authors' full family (sur)names and full/abbreviated first	
6	names are listed on the title page and are consistent with those	[Y]
	listed in the signed BPG Copyright License Agreement form.	
	The 'Author contributions' passage describes the specific	
	contribution(s) made by each author. The author's names are listed	
	in the following format: full family (sur)name followed by	
-	abbreviated first and middles names.	53/3
7	e.g., "Wang CL and Liang L contributed equally to this work; Wang	[Y]
	CL, Liang L, Fu JF, Zou CC, Hong F and Wu XM designed the	
	research study; Wang CL, Zou CC, Hong F and Wu XM performed	
	the research; Xue JZ and Lu JR contributed new reagents and	
	1	1

	analytic tools; Wang CL, Liang L and Fu JF analyzed the data; and Wang CL, Liang L and Fu JF wrote the manuscript. All authors have read and approve the final manuscript."	
8	The 'Supported by' statement describes the source(s) of financial support and includes the corresponding identification number(s) and program ID(s) if available, and contains no spelling errors.	[N]
9	The 'Corresponding author' passage provides the corresponding author's full first and family (sur)names, abbreviated title (<i>e.g.</i> , MD, PhD), affiliated institute's name and complete postal address (including zip code) and e-mail (written in all lowercase), and contains no spelling errors.	[Y]
10	The Manuscript Tracking information (<i>i.e.</i> , Received, Peer review started, First decision, Revised, Accepted, Article in press, and Published online) are provided along with the corresponding editor and date for each item, and contain no spelling errors.	[Y]
11	The Abstract section is formatted according to the article-specific style (structured vs unstructured) and word count thresholds, as follows:Commentary, Frontier, Diagnostic Advances, Medical Ethics, Minireview, Review, Therapeutics Advances, and Topic Highlight: Non-structured abstract that is no less than 200 words.Field of Vision, Case Report and Letter to the Editor: Non-structured abstract that is no less than 150 words.Research articles: Structured abstract with subsections for AIM (no more than 20 words); METHODS (no less than 80 words); RESULTS (no less than 120 words); and CONCLUSION (no more than 26	[Y]

	words).	
	The 'Key words' list provides 5-10 keywords that reflect the main	
12	content of the study. The first letter of each keyword is capitalized,	[Y]
	and each keyword is separated by a semicolon.	
	The "citation" contains authors' names and manuscript title. The	
	name of the first author should be typed in bold letters; the family	
	(sur) name of all authors should be typed with the first letter	
	capitalized, followed by their abbreviated first and middle initials.	
13	For example, an article by Jae Moon Yoon, Ki Young Son, Chun Sick	[Y]
	Eom, Daniel Durrance, Sang Min Park will be written as Yoon JM,	
	Son KY, Eom CS, Durrance D, Park SM. Pre-existing diabetes	
	mellitus increases the risk of gastric cancer: A meta-analysis. World J	
	Gastroenterol 2019; In press	
	The 'Core tip' provides a summary (less than 100 words) of the	
14	study that outlines the most innovative and important arguments	[Y]
	and core contents of the paper and will serve to effectively attract	
	readers.	
	The 'INTRODUCTION' section clearly describes the relevant	
	background information for the study. Only the most relevant and	
15	current (within the past 5 years) literature is cited, with the	
	exception of rare instances of seminal literature citations. All	
	technical terms and/or abbreviations are explained and/or defined,	
	with the full name of abbreviations given upon first appearance in	[Y]
	the text and the abbreviation presented in parentheses [i.e.,	
	"computed tomography (CT)"]. First-person pronouns (e.g., 'I',	
	'we') are used appropriately to clearly indicate the work performed	
	by the author(s). When weaknesses of previous studies are	
	described in the text to highlight the innovations related to the	
	current study, the information is presented carefully.	

	The 'MATERIALS AND METHODS' section clearly and accurately describes all materials and methods used to obtain the data	
16	presented in the article and is adequate for a reader to repeat the	[Y]
	study.	
	The 'RESULTS' section concisely describes the observational and	
	experimental results. Representative data and data that have	
	scientific significance are emphasized. Data is presented in either	
17	the text, a table or figure (<i>i.e.</i> , chart, diagram, graph or image), but is	[\]
17		[Y]
	not repeated among each. Information presented in the tables and	
	figures clearly describes the trends, meaning, and inferences.	
	Results described in textual form are accurate, concise and clear.	
	Statistical symbols are accurate. Statistical significance is expressed	
	as ${}^{a}P < 0.05$, ${}^{b}P < 0.01$ ($P > 0.05$ usually does not need to be denoted).	
18	If there are other series of <i>P</i> values, $^{c}P < 0.05$ and $^{d}P < 0.01$ are used,	[Y]
	and a third series of <i>P</i> values is expressed as $^{e}P < 0.05$ and $^{f}P < 0.01$.	
	Statistical data is expressed as mean \pm SD or mean \pm SE.	
	The 'DISCUSSION' section (1) describes the main purpose and	
	hypothesis of the study; (2) summarizes the most important results;	
	(3) illustrates and explains the results (but does not simply repeat	
19	the data) and draws conclusions or inferences based on the results;	[Y]
	(4) points out the limitations of the study and their impact on the	[+]
	results, as well as proposes further advice on future research	
	topic(s) or direction(s); and (5) describes the theoretical significance	
	and practical value of the findings.	
	The 'ACKNOWLEDGEMENTS' section expresses gratitude to any	
20	individuals or organizations for technical support (i.e., providing	
	instrumentation, equipment or experimental materials, and/or	
	assistance in experimental work), non-technical services (i.e., useful	[Y]
	inspiration, suggestions, guidance, or review), and/or any other	
	auxiliary work.	

21 The 'ARTICLE HIGHLIGHTS' section provides comments for original articles in accordance with the specified format. [Y The 'REFERENCES' section lists the references in the Vancouver style. This style uses Arabic numeral in-text citations based on the order of the first appearance of a source in the text. For citations where the author's name is indicated in the text, a superscript]
original articles in accordance with the specified format. The 'REFERENCES' section lists the references in the Vancouver style. This style uses Arabic numeral in-text citations based on the order of the first appearance of a source in the text. For citations	1
style. This style uses Arabic numeral in-text citations based on the order of the first appearance of a source in the text. For citations	
order of the first appearance of a source in the text. For citations	
where the author's name is indicated in the text, a superscript	
number should be placed following the name (<i>i.e.</i> , "Pang <i>et al</i> "). For	
citations where no author is indicated, a superscript number should	
22 be placed at the end of the sentence. Respective examples are: "Ma ^[1] [Y]
reported", "Pan et al ^[2-5] indicated"; "PCR has a high	
sensitivity ^[6,9] ." No superscript numbers are used when the	
reference number is described in the text; for example, "The	
experimental method used has been described in reference [8]." The	
style of reference citations in tables is the same as that in the text	
(<i>e.g.</i> , Pan <i>et al</i> ^[2-5] , please see reference [8]).	
Journal references have been verified to ensure that there are no	
duplicate references and that the PMID numbers are correct. For	
references not yet included in PubMed: the name of Chinese	
journals is spelled out using Chinese Pinyin, with the first letter of	
each word capitalized (<i>e.g., Shijie Huaren Xiaohua Zazhi</i>); the name of	1
journals in other languages are listed according to indexing	
information retrieved from Google. Book references are presented	
with all the information relevant to the electronic version.	
The number of cited references is appropriate for the article type, as	
follows:	
<u>Commentary:</u> no less than 50;	
24 [Y] Review: no less than 100;	1
Article: no less than 30/26;	
Case Report and Letter to the Editor: no less than 1.	

	The ethics-related statements are provided in accordance with the	
25	manuscript type (e.g., Manuscript NoInstitutional review board	[Y]
	statement, Manuscript NoAnimal care and use statement, etc.).	
	The names of the peer reviewers and the scientific editor are present	
26	at the end of the paper (e.g., P-Reviewer: Hugot D S-Editor: Wang	[Y]
	JL).	
	The order and numerical labeling of tables and figures is consistent	
	with their appearance and presentation in the text. Symbols in	
	tables (e.g., +, -, ×, \div , *) correctly correspond to the definitions in the	
07	footnotes. Only one legend is provided for each multi-panel figure	57(1
27	consisting of color graphs, black and white graphs, or line graphs	[Y]
	that depicts data of the same theme. For example: Figure 1	
	Pathological changes in atrophic gastritis tissue before and after	
	treatment. A:; B:; C:; D:; E:; F:	
	Split pictures include flow charts, line graphs, histograms, and	
28	graphs including text. Unsplit pictures include meta-analysis	[Y]
	diagrams, PCR amplification curves, and survival curves.	
20	The author(s) highlighted the changes made to the manuscript	
29	according to the peer-reviewers' comments.	[Y]
20	The responses to the peer-reviewers' comments are consistent with	
30	the changes made to the manuscript.	[Y]
	The revised manuscript is provided (file name: Manuscript	
31	NoReview; <i>e.g.,</i> 870- Review).	
	The letter of peer-reviewers' comments is provided (file name:	[Y]
	Manuscript NoPeer-review(s); e.g., 870-Peer-review(s)).	
	The response letter is provided (file name: Manuscript	
	NoAnswering reviewers; e.g., 870-Answering reviewers).	
	The related ethics and relevant documents are provided, such as (1)	
32	Approved grant application form(s) or funding agency copy of any	[Y]
	approval document(s) (file name: Manuscript NoGrant application	

form(s)); (2) Biostatistics review certificate (file name: Manuscript NoBiostatistics statement); (3) Conflict-of-interest statement (file name: Manuscript NoConflict-of-interest statement); (4) Clinical trial registration statement (file name: Manuscript NoClinical trial registration statement); (5) Institutional review board approval form or document (file name: Manuscript NoInstitutional review board statement); (6) Institutional animal care and use committee approval form or document (file name: Manuscript NoInstitutional animal care and use committee approval form or document (file name: Manuscript NoInstitutional animal care and use committee statement); (6) Institutional animal care and use committee statement); (7) Signed informed consent form(s) or document(s) (file name: Manuscript NoInformed consent statement).[Y]33All authors signed the BFG Copyright license agreement form (file name: Manuscript NoCopyright license agreement; <i>e.g.</i> , 870-Copyright license agreement).[Y]34The language certificate provided by authors who are non-native speakers of English meets the BPG requirements (file name: Manuscript NoLanguage certificate; <i>e.g.</i> , 870-Language certificate).[Y]35The photos licensed in the Agreement for Use of Personal Photos are consistent with those in the paper (file name: Manuscript NoAgreement for use of personal photos; <i>e.g.</i> , 870-Agreement for use of personal photos).[Y]36This document (Checklist of Responsibilities for Scientific Editors) has been saved under the file name: manuscript NoScientific editor work list (<i>e.g.</i> , 870-Scientific editor work list).[Y]37A CrossCheck investigation (an effective tool for detecting unoriginal content, enabling our editors to preserve the journa			
name:ManuscriptNoConflict-of-intereststatement); (4)Clinical trial registration statement (file name:ManuscriptNoClinical trial registration statement); (5)Institutional review board approval form or document (file name:ManuscriptNoInstitutional review board approval form or document (file name:ManuscriptNoInstitutional animal care and use committee approval form or document (file name:ManuscriptNoInstitutional animal care and use committee statement), and (7)Signedinformed consent form(s) or document(s)(file name: Manuscript NoInformed consent statement).(7)All authors signed the BPG Copyright license agreement form (file name:Manuscript NoCopyright license agreement; e.g., 870-Copyright license agreement).[Y]34speakers of English meets the BPG requirements (file name: Manuscript NoLanguage certificate; e.g., 870-Language certificate).[Y]35The photos licensed in the Agreement for Use of Personal Photos are consistent with those in the paper (file name: Manuscript NoAgreement for use of personal photos).[Y]36This document (Checklist of Responsibilities for Scientific Editors) has been saved under the file name: manuscript NoScientific editor work list (e.g., 870-Scientific editor work list).[Y]37A CrossCheck investigation (an effective tool for detecting unoriginal content, enabling our editors to preserve the journal's integrity and the authors' copyright) has been performed for the manuscript via the website: http://www.ithenticate.com/. 	The Figure of the <i>CrossCheck</i> results is saved in JPEG format (.jpg) at	
	1440 \times 680 pixel resolution. The PDF of the <i>CrossCheck</i> results has	
	been saved under the file name: manuscript No CrossCheck report	
	(e.g., 870-CrossCheck report). The Google searches have also been	
	performed to further ensure publication of original content.	
38	The text of the manuscript is typed in Book Antiqua font, 12 pt, with	[1]
50	1.5 line spacing.	[Y]
	The primary responsibilities of our scientific editors include carefull	y checking the
Responsibilities	entire manuscript and all accompanying materials for: (1) error	rs in spelling,
-	grammar, punctuation and wording; (2) suitability of tables, figures, f	igure data and
of scientific editors	legends; (3) accurate and appropriate presentation of symbols (e.g. +,	-, ×, ÷, %, *) in
editors	tables and figures; and (4) complete and comprehensive revision of t	he manuscript
	according to the reviewers' comments.	
	Manuscript reception and registration→Initial review by scientific	c editor→Peer
	review→End of peer review→First round of meeting evalu	ation→To be
	accepted \rightarrow Revision by the author(s) \rightarrow Second round of meeting eval	uation→To be
	accepted/revised/rejected→Final review by the Editor-in-Chief	(final quality
Publication	control for academic content and language quality)→Final acceptance	e and charging
process	of publication fee \rightarrow Language editing \rightarrow Production \rightarrow Proofreading	by scientific
	editor→Proofreading by deputy editor→Final review by Editor-in-0	Chief→Release
	of online open-access papers in electronic form on the BPG websi	te→Release of
	online papers on PubMed Central \rightarrow Delivery of high-quality PDF	reprints to the
	author(s) \rightarrow End of the publication process.	
	¹ Ethics and Relevant Document Handling Time	
	For the checking of the ethics and relevant document, the editing	fee should be
NT /	calculated independently to the Scientific Editor. The handling time	e of the ethics
Notes	and relevant documents for clinical and basic researches is calculated	as 3 hours, for
	case reports and other types of manuscript is calculated as 2 hours.	
	If any errors are found in ethics and relevant document after a	manuscript is
-	•	

published, the Scientific Editor's one day Welfare provided by the Baishideng
Publishing Group will be deducted.
