

Reviewer #1:

Scientific Quality: Grade B (Very good)

Language Quality: Grade A (Priority publishing)

Conclusion: Accept (General priority)

Specific Comments to Authors: Authors letter have a lot of fantastic suggestions to the previous manuscript. So, I do not have any comments. Thank you for giving me a chance to review your letter.

Response: I am very grateful to the reviewer for his/her review and constructive comments on my manuscript. This inspires me to conduct more scientific research work in the future. In addition, according to the requirements of the editor and the magazine, I have re polished the content and modified the format.
