SPECIFIC COMMENTS TO AUTHORS

1. In line 63, what does lower limb fatigue means? I think here we have to mention the condition not the symptom. 2. Regarding the treatment- please specify the angiography findings. Was the total occlusion was acute or chronic? Was it because of thrombus or chronic due to plaque? Post stent was there any remaining thrombus? 3. In line 152- cause of paradoxical embolism- acute pulmonary embolism with cor-pulmonale or right sided strain will be more appropriate. 4. Please elaborate the history of present illness.
