

Reviewer #1:

Scientific Quality: Grade C (Good)

Language Quality: Grade A (Priority publishing)

Conclusion: Accept (General priority)

Specific Comments to Authors: The authors presented an interesting clinical case of gastric cancer with a rare genetic syndrome of congenital intestinal and colon malrotation. Laparoscopic radical gastrectomy was carried out as planned. The authors presented a detailed algorithm for computed tomography. Laparoscopic intra-abdominal image is well presented. The manuscript is well illustrated and meets all the requirements of evidence-based medicine. The manuscript is recommended for publication in the World Journal of Clinical Cases.

The author's answer: Thanks for your comment and professional advice.

Reviewer #2:

Scientific Quality: Grade C (Good)

Language Quality: Grade B (Minor language polishing)

Conclusion: Minor revision

Specific Comments to Authors: The manuscript needs to extensive editing to improve grammar and clarity. The language service explained by the authors is not suitable for scientific editing.

The author's answer: Thanks for your comment and professional advice. We had sent the revised manuscript to a professional English language editing company to polish the manuscript further and they had provided a new language certificate along with the manuscript. We believe all grammatical, syntactical, formatting and other related errors be resolved and the revised manuscript will meet the publication requirement (Grade A).
