SPECIFIC COMMENTS TO AUTHORS

The manuscript is nice to read, with clear language. The Figure is also nice and informative. There is a relatively high degree of similarity (~25%) in the text with another publication on Tenosynovitis (bellow). I suggest the authors and editorial office take a look at it to avoid future problems with plagiarism. Ray G, Sandean DP, Tall MA. Tenosynovitis. [Updated 2023 May 1]. In: StatPearls [Internet].
