**SPECIFIC COMMENTS TO AUTHORS**

- We believe this article is suitable for publication in the journal although some revisions are needed. The main strengths of this paper are that it addresses an interesting and very timely question and provides a clear answer, with some limitations. Certainly, a linguistic revision is necessary, since there are some grammar mistakes and the manuscript needs corrections. - The background of the changing scenario of medical treatment for biliary tract cancer should be better discussed, and some recent papers regarding this topic should be included ( PMID: 33756174; PMID: 35031442 ; PMID: 33592561; PMID: 33571059 ), only for a matter of consistency. - The abstract should be modified. Some changes are necessary.
