Dear Editor and Reviewers,

Thank you for taking the time to review our manuscript and providing valuable feedback. We appreciate your efforts in helping us improve the quality of our work.

We are writing to inform you that we have carefully considered your comments and made the appropriate changes to the manuscript and have addressed the concerns raised by the reviewers. We hope that these revisions have addressed your concerns and improved the overall quality of the manuscript.

Regarding Reviewers' comments and suggestions we offer following answers.

Reviewer 1

We would like to express our gratitude for your valuable feedback on our manuscript, 'Immunology Demystified: A Guide for Transplant Hepatologists'. We have incorporated your suggestion and included a section on immune monitoring to prevent infectious complications, including the importance of IgG level monitoring. We believe this addition significantly enhances the article's completeness, aligning it better with our readers' interests. Thank you for recognizing the potential value of our work.

Reviewer 2

We would like to extend our gratitude for your detailed review of our manuscript. Your critique is valuable, and we wish to provide some context regarding the manuscript's purpose. It serves as an introductory resource for those new to transplant immunology, providing a comprehensive overview rather than delving into in-depth research. Your feedbak was greatly appreciated and helped us enhance the article to better meet the needs of our audience.

We would like to take this opportunity to thank you again for your feedback, which has been instrumental in enhancing the clarity and accuracy of our work. We believe that the revised manuscript is now ready for publication and we hope that you will find it satisfactory.

Please let us know if there are any further changes or revisions that you would like us to consider. We look forward to your response.

Thank you again for your time and effort in reviewing our manuscript.

Sincerely,

Iva Košuta
