SPECIFIC COMMENTS TO AUTHORS

I am Bum-Soo Kim from Korea. As the author of the reference, I read this paper carefully. This paper is well organized. As the authors have described, usually spilled gallstone in acute cholecystitis has many papers, but spilled gallstone is the first in GB cancer. But, there are some questions. It would be nice to have a CT before laparoscopic cholecystectomy. If it was diagnosed as GB ca before surgery, shouldn't it have been performed with extended cholecystectomy? Then the authors would have done liver WR and wouldn't have to worry about GB Perforation. It would be better to review again after correcting according to the reviewer's comment. Best regards, Bum-Soo Kim
