PEER-REVIEW REPORT

Name of journal: *World Journal of Transplantation*

Manuscript NO: 89978

Title: Management strategies for common viral infections in pediatric renal transplant recipients

Provenance and peer review: Invited Manuscript; Externally peer reviewed

Peer-review model: Single blind

Reviewer's code: 03383549

Position: Peer Reviewer

Academic degree: MD, PhD

Professional title: Doctor, Reader (Associate Professor)

Reviewer's Country/Territory: China

Author's Country/Territory: Sri Lanka

Manuscript submission date: 2023-11-20

Reviewer chosen by: AI Technique

Reviewer accepted review: 2023-11-27 06:26

Reviewer performed review: 2023-12-06 03:15

Review time: 8 Days and 20 Hours

Scientific quality	<input type="checkbox"/> Grade A: Excellent <input type="checkbox"/> Grade B: Very good <input checked="" type="checkbox"/> Grade C: Good <input type="checkbox"/> Grade D: Fair <input type="checkbox"/> Grade E: Do not publish
Novelty of this manuscript	<input type="checkbox"/> Grade A: Excellent <input checked="" type="checkbox"/> Grade B: Good <input type="checkbox"/> Grade C: Fair <input type="checkbox"/> Grade D: No novelty
Creativity or innovation of this manuscript	<input type="checkbox"/> Grade A: Excellent <input type="checkbox"/> Grade B: Good <input checked="" type="checkbox"/> Grade C: Fair <input type="checkbox"/> Grade D: No creativity or innovation

Scientific significance of the conclusion in this manuscript	<input type="checkbox"/> Grade A: Excellent <input checked="" type="checkbox"/> Grade B: Good <input type="checkbox"/> Grade C: Fair <input type="checkbox"/> Grade D: No scientific significance
Language quality	<input type="checkbox"/> Grade A: Priority publishing <input checked="" type="checkbox"/> Grade B: Minor language polishing <input type="checkbox"/> Grade C: A great deal of language polishing <input type="checkbox"/> Grade D: Rejection
Conclusion	<input type="checkbox"/> Accept (High priority) <input type="checkbox"/> Accept (General priority) <input checked="" type="checkbox"/> Minor revision <input type="checkbox"/> Major revision <input type="checkbox"/> Rejection
Re-review	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Peer-reviewer statements	Peer-Review: <input checked="" type="checkbox"/> Anonymous <input type="checkbox"/> Onymous

SPECIFIC COMMENTS TO AUTHORS

Immune suppressive agents are routinely used to overcome host rejection on organ transplantation. Administration of this type of drugs may elicit the problem of viral infection in the setting of immunocompromise status of the transplant donors. The present paper summarizes the facing problems and well discussed the strategies for treatment of prevention of the infection. It provides insightful viewpoints. There were still minor points regarding the writing and of linguistic, remaining to be revised: 1. The submission mainly dealt with a herpesvirus, EBV. It is suggested that the invading viruses be grouped into herpesviruses, and other viruses (lines 5-7, Abstract); 2. The numbers 1, 2 for references cited should be separated (line 2, under Introduction); 3. Please specify "respiratory viruses"(line 7, p.4, under Etiology); 4. Misspelling: viruuria; (line 2 from the bottom, p.6); The quality of the manuscript could attain the level of acceptance after language correction.
