Editorial team
World Journal of Transplantation

Dear Editor

The revised paper “Management strategies for common viral infections in paediatric renal transplant recipients” submitted to the World Journal of Transplantation by Randula Ranawaka, Kavinda Dayasiri, Erandima Sandamali and Manoji Gamage has been read through with regard to English Language by Dr Dominic F Kelly. Dr Kelly is a BRC Consultant in Paediatrics and Vaccinology at the Oxford Children’s Hospital in Oxford, UK; a clinical academic at the Oxford Vaccine Group, University of Oxford Department of Paediatrics; and trained in medicine at the University of Cambridge. English is his first language and he has trained and written in English throughout this time.

Yours sincerely

Dr DF Kelly MRCPCH PhD
Consultant in Paediatrics and Vaccinology
