Dear Editor

World Journal of Clinical Cases,

We thank the reviewers for their generous comments on the manuscript titled “**Metabologenomics and Network Pharmacology to Understand the Molecular Mechanism of Cancer Research** “. I have edited the manuscript to address their concerns.

I believe that the manuscript is now suitable for publication in World Journal of Clinical Cases.

Prof Dr Yusuf TUTAR

Reviewer comments:

“The article is well-organized, making it easy for readers to follow the logical flow of ideas. Consider providing more subheadings within sections to enhance readability and guide readers through specific topics. Please include real-world scenarios or experimental results to enhance the article's relevance. Add discussion on potential future developments in the field would add a forward-looking perspective to the article.”

I added subheadings and experimental results along with future developments as suggested by the reviewers.
