SPECIFIC COMMENTS TO AUTHORS

This study entitled “Appendicitis combined with Meckel diverticulum obstruction, perforation, and inflammation in children: 3 case reports” seems to have been generally well executed and written. Furthermore, I believe that this paper will be of great interest to the readers. However, I have only a few remarks that require authors attention.

Keywords Consider some additional MeSH keywords to readers easier identify your research.

Introduction Please expand your Introduction with recent evidence of similar studies to provide the readers the better background for conducting your study.

Discussion Please state the limitations of your study at the end of Discussion.
