Item No.	Specific items for verification	Yes=[Y]
		No= [N]
	General Information of the Manuscript	
	Name of journal: World Journal of Anesthesiology	
1	Manuscript NO.: 90514	[Y]
	Column: Observational Study	
	Title: Bilateral Pericapsular End Nerve Blocks (PENG) for	

	steroid-induced Avascular Necrosis following COVID-19 infection	
	requiring bilateral Total Hip Replacement	
	Authors: Somita Christopher, Sweety Dutta and TVS Gopal	
	Reviewer code: 06398381, and 06393192	
	First decision: 2023-12-23 07:26	
	Editorial Office's Comments	
	Science Editor: 1. Please re-provide the original figure documents.	
	All submitted figures, including the text contained within the	
	figures, must be editable. Please provide the text in your figure(s) in	
	text boxes; For line drawings that were automatically generated	
	with software, please provide the labels/values of the ordinate and	
	abscissa in text boxes; Please prepare and arrange the figures using	
	PowerPoint to ensure that all graphs or arrows or text portions can	
	be reprocessed by the editor.2. Please re-provide the Microsoft Excel	
2	or Word tables as three-line tables. Carriage returns or spaces are	[2/]
2	not allowed to be used for replacing lines. Only top/bottom lines	[Y]
	and column line are displayed, and other lines should be hidden. 3.	
	Please fill in the specific page/line numbers of each item in the	
	STROBE statement.	
	Company Editor-in-Chief: I have reviewed the Peer-Review	
	Report, full text of the manuscript, all of which have met the basic	
	publishing requirements of the World Journal of Anesthesiology,	
	and the manuscript is conditionally accepted. I have sent the	
	manuscript to the author(s) for its revision according to the	
	Peer-Review Report, Editorial Office's comments and the Criteria	

	for Manuscript Revision by Authors. When revising the manuscript, it is recommended that the author supplement and improve the highlights of the latest cutting-edge research results, thereby further improving the content of the manuscript. To this end, authors are advised to apply PubMed, or a new tool, the RCA, of which data source is PubMed. RCA is a unique artificial intelligence system for citation index evaluation of medical science and life science literature. In it, upon obtaining search results from the keywords entered by the author, "Impact Index Per Article" under "Ranked by" should be selected to find the latest highlight articles, which can then be used to further improve an article under preparation/peer-review/revision. Please visit our RCA database for more information at: https://www.referencecitationanalysis.com/, or visit PubMed at:	
3	https://pubmed.ncbi.nlm.nih.gov/. The fixed headings are copied.	[Y]
4	The title concisely summarizes the main topic of the study and is not too long (no more than 18 words). Words such as 'exploration', 'research', 'analysis', 'observation', and 'investigation' are avoided. The title does not start with 'The' and does not include any Arabic numbers or uncommon abbreviations.	[1]
5	A short running title is provided (no more than 6 words).	[Y]
6	The authors' full family (sur)names and full/abbreviated first names are listed on the title page and are consistent with those listed in the signed BPG Copyright License Agreement form.	[Y]

	The 'Author contributions' passage describes the specific	
	contribution(s) made by each author. The author's names are listed	
	in the following format: full family (sur)name followed by	
	abbreviated first and middles names.	
	e.g., "Wang CL and Liang L contributed equally to this work; Wang	
7	CL, Liang L, Fu JF, Zou CC, Hong F and Wu XM designed the	[Y]
	research study; Wang CL, Zou CC, Hong F and Wu XM performed	
	the research; Xue JZ and Lu JR contributed new reagents and	
	analytic tools; Wang CL, Liang L and Fu JF analyzed the data; and	
	Wang CL, Liang L and Fu JF wrote the manuscript. All authors	
	have read and approve the final manuscript."	
	The 'Supported by' statement describes the source(s) of financial	
8	support and includes the corresponding identification number(s)	[N]
	and program ID(s) if available, and contains no spelling errors.	
	The 'Corresponding author' passage provides the corresponding	
	author's full first and family (sur)names, abbreviated title (e.g., MD,	
9	PhD), affiliated institute's name and complete postal address	[Y]
	(including zip code) and e-mail (written in all lowercase), and	
	contains no spelling errors.	
	The Manuscript Tracking information (i.e., Received, Peer review	
10	started, First decision, Revised, Accepted, Article in press, and	
10	Published online) are provided along with the corresponding editor	[Y]
	and date for each item, and contain no spelling errors.	
	The Abstract section is formatted according to the article-specific	
	style (structured vs unstructured) and word count thresholds, as	
11	follows:	
	Commentary, Frontier, Diagnostic Advances, Medical Ethics,	[Y]
	Minireview, Review, Therapeutics Advances, and Topic Highlight:	
	Non-structured abstract that is no less than 200 words.	
	Field of Vision, Case Report and Letter to the Editor:	

	Non-structured abstract that is no less than 150 words.	
	Research articles: Structured abstract with subsections for AIM (no	
	more than 20 words); METHODS (no less than 80 words); RESULTS	
	(no less than 120 words); and CONCLUSION (no more than 26	
	words).	
	The 'Key words' list provides 5-10 keywords that reflect the main	
12	content of the study. The first letter of each keyword is capitalized,	[Y]
	and each keyword is separated by a semicolon.	
	The "citation" contains authors' names and manuscript title. The	
	name of the first author should be typed in bold letters; the family	
	(sur) name of all authors should be typed with the first letter	
	capitalized, followed by their abbreviated first and middle initials.	
13	For example, an article by Jae Moon Yoon, Ki Young Son, Chun Sick	[Y]
	Eom, Daniel Durrance, Sang Min Park will be written as Yoon JM,	
	Son KY, Eom CS, Durrance D, Park SM. Pre-existing diabetes	
	mellitus increases the risk of gastric cancer: A meta-analysis. World J	
	Gastroenterol 2019; In press	
	The 'Core tip' provides a summary (less than 100 words) of the	
14	study that outlines the most innovative and important arguments	
14	and core contents of the paper and will serve to effectively attract	[Y]
	readers.	
	The 'INTRODUCTION' section clearly describes the relevant	
	background information for the study. Only the most relevant and	
	current (within the past 5 years) literature is cited, with the	
	exception of rare instances of seminal literature citations. All	
15	technical terms and/or abbreviations are explained and/or defined,	[Y]
	with the full name of abbreviations given upon first appearance in	
	the text and the abbreviation presented in parentheses [i.e.,	
	"computed tomography (CT)"]. First-person pronouns (e.g., 'I',	
	'we') are used appropriately to clearly indicate the work performed	
	1	

	by the author(s). When weaknesses of previous studies are described in the text to highlight the innovations related to the current study, the information is presented carefully.	
16	The 'MATERIALS AND METHODS' section clearly and accurately describes all materials and methods used to obtain the data presented in the article and is adequate for a reader to repeat the study.	[Y]
17	The 'RESULTS' section concisely describes the observational and experimental results. Representative data and data that have scientific significance are emphasized. Data is presented in either the text, a table or figure (<i>i.e.</i> , chart, diagram, graph or image), but is not repeated among each. Information presented in the tables and figures clearly describes the trends, meaning, and inferences. Results described in textual form are accurate, concise and clear.	[Y]
18	Statistical symbols are accurate. Statistical significance is expressed as ${}^{a}P < 0.05$, ${}^{b}P < 0.01$ ($P > 0.05$ usually does not need to be denoted). If there are other series of P values, ${}^{c}P < 0.05$ and ${}^{d}P < 0.01$ are used, and a third series of P values is expressed as ${}^{e}P < 0.05$ and ${}^{f}P < 0.01$. Statistical data is expressed as mean ± SD or mean ± SE.	[Y]

19The 'DISCUSSION' section (1) describes the main purpose and hypothesis of the study; (2) summarizes the most important results; (3) illustrates and explains the results (but does not simply repeat the data) and draws conclusions or inferences based on the results; (4) points out the limitations of the study and their impact on the results, as well as proposes further advice on future research topic(s) or direction(s); and (5) describes the theoretical significance and practical value of the findings.[Y]20The 'ACKNOWLEDGEMENTS' section expresses gratitude to any individuals or organizations for technical support (<i>i.e.</i> , providing instrumentation, equipment or experimental materials, and/or assistance in experimental work), non-technical services (<i>i.e.</i> , useful inspiration, suggestions, guidance, or review), and/or any other auxiliary work.[N]21The 'ARTICLE HIGHLIGHTS' section provides comments for original articles in accordance with the specified format.[Y]22The 'ARTICLE HIGHLIGHTS' section provides comments for order of the first appearance of a source in the text. For citations where the author's name is indicated in the text, a superscript number should be placed following the name (<i>i.e.</i> , "Pang et al"). For citations where no author is indicated, a superscript number should be placed at the end of the sentence. Respective examples are: "MalU reported,", "Pan et al ^{DS}] indicated,"; "PCR has a high sensitivity! ^{6,0} ," No superscript numbers are used when the reference number is described in the text; for example, "The experimental method used has been described in reference [8]." The style of reference citations in tables is the same as that in the text (e.g., Pan et al ^{DS}], please see reference [8]).		-	
 (3) illustrates and explains the results (but does not simply repeat the data) and draws conclusions or inferences based on the results; (4) points out the limitations of the study and their impact on the results, as well as proposes further advice on future research topic(s) or direction(s); and (5) describes the theoretical significance and practical value of the findings. The 'ACKNOWLEDGEMENTS' section expresses gratitude to any individuals or organizations for technical support (<i>i.e.</i>, providing instrumentation, equipment or experimental materials, and/or assistance in experimental work), non-technical services (<i>i.e.</i>, useful inspiration, suggestions, guidance, or review), and/or any other auxiliary work. The 'ARTICLE HIGHLIGHTS' section provides comments for original articles in accordance with the specified format. The 'REFERENCES' section lists the references in the Vancouver style. This style uses Arabic numeral in-text citations based on the order of the first appearance of a source in the text. For citations where the author's name is indicated in the text, a superscript number should be placed following the name (<i>i.e.</i>, "Pag et al"). For citations where no author is indicated, a superscript number should be placed at the end of the sentence. Respective examples are: "Ma¹¹ reported,", "Pan et al²⁵ indicated"; "PCR has a high sensitivity^{[69],"} No superscript numbers are used when the reference number is described in the text; for example, "The experimental method used has been described in reference [8]." The style of reference citations in tables is the same as that in the text 		The 'DISCUSSION' section (1) describes the main purpose and	
19the data) and draws conclusions or inferences based on the results; (4) points out the limitations of the study and their impact on the results, as well as proposes further advice on future research topic(s) or direction(s); and (5) describes the theoretical significance and practical value of the findings.[Y]20The 'ACKNOWLEDGEMENTS' section expresses gratitude to any individuals or organizations for technical support (<i>i.e.</i> , providing instrumentation, equipment or experimental materials, and/or assistance in experimental work), non-technical services (<i>i.e.</i> , useful inspiration, suggestions, guidance, or review), and/or any other auxiliary work.[N]21The 'ARTICLE HIGHLIGHTS' section provides comments for original articles in accordance with the specified format.[Y]21The 'REFERENCES' section lists the references in the Vancouver style. This style uses Arabic numeral in-text citations based on the order of the first appearance of a source in the text, For citations where the author's name is indicated in the text, a superscript number should be placed following the name (<i>i.e.</i> , "Pang <i>et al</i> "). For citations where no author is indicated," "Pang <i>et al</i> "). For citations where no author is indicated," "PCR has a high sensitivity ^[69] ." No superscript numbers are used when the reference number is described in the text; for example, "The experimental method used has been described in reference [8]." The style of reference citations in tables is the same as that in the text		hypothesis of the study; (2) summarizes the most important results;	
19(4) points out the limitations of the study and their impact on the results, as well as proposes further advice on future research topic(s) or direction(s); and (5) describes the theoretical significance and practical value of the findings.[Y]20The 'ACKNOWLEDGEMENTS' section expresses gratitude to any individuals or organizations for technical support (<i>i.e.</i> , providing instrumentation, equipment or experimental materials, and/or assistance in experimental work), non-technical services (<i>i.e.</i> , useful inspiration, suggestions, guidance, or review), and/or any other auxiliary work.[N]21The 'ARTICLE HIGHLIGHTS' section provides comments for original articles in accordance with the specified format.[Y]21The 'REFERENCES' section lists the references in the Vancouver style. This style uses Arabic numeral in-text citations based on the order of the first appearance of a source in the text. For citations where the author's name is indicated in the text, a superscript number should be placed following the name (<i>i.e.</i> , "Pang <i>et al</i> "). For citations where no author is indicated," "Pang <i>et al</i> "). For citations where no author is indicated," "PCR has a high sensitivity ^[6,9] ." No superscript numbers are used when the reference number is described in the text, for example, "The experimental method used has been described in reference [8]." The style of reference citations in tables is the same as that in the text		(3) illustrates and explains the results (but does not simply repeat

	-	
23	Journal references have been verified to ensure that there are no duplicate references and that the PMID numbers are correct. For references not yet included in PubMed: the name of Chinese journals is spelled out using Chinese Pinyin, with the first letter of each word capitalized (<i>e.g., Shijie Huaren Xiaohua Zazhi</i>); the name of	[Y]
	journals in other languages are listed according to indexing information retrieved from Google. Book references are presented with all the information relevant to the electronic version.	
24	The number of cited references is appropriate for the article type, as follows: <u>Commentary:</u> no less than 50; <u>Review:</u> no less than 100; <u>Article:</u> no less than 30/26; <u>Case Report and Letter to the Editor:</u> no less than 1.	[Y]
25	The ethics-related statements are provided in accordance with the manuscript type (<i>e.g.</i> , Manuscript NoInstitutional review board statement, Manuscript NoAnimal care and use statement, <i>etc.</i>).	[Y]
26	The names of the peer reviewers and the scientific editor are present at the end of the paper (<i>e.g.</i> , P-Reviewer: Hugot D S-Editor: Wang JL).	[Y]
27	The order and numerical labeling of tables and figures is consistent with their appearance and presentation in the text. Symbols in tables (<i>e.g.</i> , +, -, ×, \div , *) correctly correspond to the definitions in the footnotes. Only one legend is provided for each multi-panel figure consisting of color graphs, black and white graphs, or line graphs that depicts data of the same theme. For example: Figure 1 Pathological changes in atrophic gastritis tissue before and after treatment. A:; B:; C:; D:; E:; F:	[Y]
28	Split pictures include flow charts, line graphs, histograms, and graphs including text. Unsplit pictures include meta-analysis	[Y]

	diagrams, PCR amplification curves, and survival curves.	
29	The author(s) highlighted the changes made to the manuscript	
	according to the peer-reviewers' comments.	[Y]
20	The responses to the peer-reviewers' comments are consistent with	
30	the changes made to the manuscript.	[Y]
	The revised manuscript is provided (file name: Manuscript	
	NoReview; <i>e.g.</i> , 870- Review).	
31	The letter of peer-reviewers' comments is provided (file name:	
51	Manuscript NoPeer-review(s); e.g., 870-Peer-review(s)).	[Y]
	The response letter is provided (file name: Manuscript	
	NoAnswering reviewers; e.g., 870-Answering reviewers).	
	The related ethics and relevant documents are provided, such as (1)	
	Approved grant application form(s) or funding agency copy of any	
	approval document(s) (file name: Manuscript NoGrant application	
	form(s)); (2) Biostatistics review certificate (file name: Manuscript	
	NoBiostatistics statement); (3) Conflict-of-interest statement (file	
	name: Manuscript NoConflict-of-interest statement); (4) Clinical	
22	trial registration statement (file name: Manuscript NoClinical trial	
32	registration statement); (5) Institutional review board approval form	[Y]
	or document (file name: Manuscript NoInstitutional review board	
	statement); (6) Institutional animal care and use committee	
	approval form or document (file name: Manuscript	
	NoInstitutional animal care and use committee statement), and (7)	
	Signed informed consent form(s) or document(s) (file name:	
	Manuscript NoInformed consent statement).	
	All authors signed the BPG Copyright license agreement form (file	
33	name: Manuscript NoCopyright license agreement; e.g.,	[Y]
	870-Copyright license agreement).	
24	The language certificate provided by authors who are non-native	[3/]
34	speakers of English meets the BPG requirements (file name:	[Y]

Γ		
	Manuscript NoLanguage certificate; <i>e.g.</i> , 870-Language certificate).	
	The photos licensed in the Agreement for Use of Personal Photos	
	are consistent with those in the paper (file name: Manuscript	[N]]
35	NoAgreement for use of personal photos; e.g., 870-Agreement for	[N]
	use of personal photos).	
	This document (Checklist of Responsibilities for Scientific Editors)	
36	has been saved under the file name: manuscript NoScientific	[Y]
	editor work list (e.g., 870-Scientific editor work list).	
	A CrossCheck investigation (an effective tool for detecting unoriginal	
	content, enabling our editors to preserve the journal's integrity and	
	the authors' copyright) has been performed for the manuscript via	
	the website: http://www.ithenticate.com/. The results document	
	contains the following information for the manuscript: "Name of	
37	journal", "Manuscript No.", "Columns", "Title" and "Author list".	[Y]
	The Figure of the CrossCheck results is saved in JPEG format (.jpg) at	
	1440 \times 680 pixel resolution. The PDF of the <i>CrossCheck</i> results has	
	been saved under the file name: manuscript No CrossCheck report	
	(e.g., 870-CrossCheck report). The Google searches have also been	
	performed to further ensure publication of original content.	
20	The text of the manuscript is typed in Book Antiqua font, 12 pt, with	57(1
38	1.5 line spacing.	[Y]
	The primary responsibilities of our scientific editors include carefull	y checking the
Responsibilities of scientific editors	entire manuscript and all accompanying materials for: (1) error	s in spelling.
		1 0
	grammar, punctuation and wording; (2) suitability of tables, figures, f	
	legends; (3) accurate and appropriate presentation of symbols (<i>e.g.</i> +,	-, ×, ÷, %, *) in
	tables and figures; and (4) complete and comprehensive revision of t	he manuscript
	according to the reviewers' comments.	
L	1	

	Manuscript reception and registration→Initial review by scientific editor→Peer	
	review \rightarrow End of peer review \rightarrow First round of meeting evaluation \rightarrow To be	
	accepted \rightarrow Revision by the author(s) \rightarrow Second round of meeting evaluation \rightarrow To be	
	accepted/revised/rejected \rightarrow Final review by the Editor-in-Chief (final quality	
Publication	control for academic content and language quality) \rightarrow Final acceptance and charging	
process	of publication fee \rightarrow Language editing \rightarrow Production \rightarrow Proofreading by scientific	
	editor→Proofreading by deputy editor→Final review by Editor-in-Chief→Release

	online papers on PubMed Central→Delivery of high-quality PDF reprints to the	
	author(s) \rightarrow End of the publication process.	
	¹ Ethics and Relevant Document Handling Time	
	For the checking of the ethics and relevant document, the editing fee should be	
	calculated independently to the Scientific Editor. The handling time of the ethics	
Notes	and relevant documents for clinical and basic researches is calculated as 3 hours, for	
Notes	case reports and other types of manuscript is calculated as 2 hours.	
	If any errors are found in ethics and relevant document after a manuscript is	
	published, the Scientific Editor's one day Welfare provided by the Baishideng	
	Publishing Group will be deducted.
