***World Journal of Diabetes***

Dear Dr. Cai, Dr. Horowitz and Dr. Islam:

I am writing to indicate that I thoroughly reviewed the current revision of our manuscript entitled titled “Long-term effects of gestational diabetes mellitus on the pancreas of female mouse offspring” with identification number 90707 for appropriate English grammar and syntax. I thank the reviewers for their helpful comments and hope that these minor grammatical edits are sufficient. Thank you for your consideration of this manuscript for publication in the World Journal of Diabetes.

Sincerely,

Christopher M. Peters, PhD
