To Whomsoever It May Concern,

This study, utilizing the National (or Nationwide) Readmission Database (NRD), is exempt from full Institutional Review Board (IRB) review as it involves secondary analysis of de-identified data collected for administrative purposes. The exemption is granted by federal regulations governing research involving publicly available data and poses minimal risk to subjects, maintaining their anonymity. No identifiable information was used, ensuring strict confidentiality. This exemption aligns with ethical standards and guidelines. The data for our study can be publicly accessed at <https://hcup-us.ahrq.gov/nrdoverview.jsp>.

Please feel free to reach out to me at with any questions.

Sincerely,

Dr. Dushyant Singh Dahiya, MD
