**SPECIFIC COMMENTS TO AUTHORS**

The authors have quite beautifully prepared the manuscript. Incorporating almost all the scientific endeavors related to immunotherapy in Pancreatic Cancer. However, two things need to be considered- 1. It will be better if the authors add a separate section for the availability, challenges and efficacy of chemotherapy, radiotherapy and surgical intervention related to pancreatic cancer. 2. Structurally, the authors should work on connecting the paragraphs so that the link between different sections is more specific and do not appear to be abrupt.
