	General Information of the Manuscript		
	Name of journal: World Journal of Diabetes		
1	Manuscript NO.: 91602	[ Y	]
	Column: Review		
	Title: Role of renin-angiotensin system/angiotensin converting		

	enzyme-2 mechanism and enhanced COVID-19 susceptibility in	
	type 2 diabetes mellitus	
	Authors: Ashwin Kumar Shukla, Komal Awasthi, Kauser Usman	
	and Monisha Banerjee	
	Reviewer code: 04279936	
	<b>First decision:</b> 2024-01-16 05:34	
	Editorial Office's Comments	
	Science Editor: I have sent the edited manuscript to the author(s)	
	for proofreading. The author(s) replied that there is a need to	
	change the manuscript. Please see the remarks for the content of the	
	reply and the attachment for the email record of communication	
	with the author(s). 发件人: 宓余强 <yuqiangmi68@163.com> 收</yuqiangmi68@163.com>	
	件人: y.l.chen <y.l.chen@wjgnet.com> 时间: 2024 年 2 月 16 日 (周</y.l.chen@wjgnet.com>	
	五) 23:01 大小: 4 MB Dear editor: We are glad to receive your	
	final decision.In the process of revising the manuscript, a repetition	
2	was found (Table 4), so this paragraph was deleted. we found that	[Y]
	the application of "LSM" instead of "E value" was more scientific,	
	so figures 3 and 4 were revised. There are some other problems, as	
	shown in the attachment. I am deeply sorry for the trouble brought	
	to you. Best regards, Yuqiang Mi Professor, Department of	
	hepatology Tianjin Second People's Hospital 发件人: Monisha

	人: y.l.chen <y.l.chen@wjgnet.com> 时间: 2024年2月18日 (周日)</y.l.chen@wjgnet.com>	
	15:59 大小: 797 KB Dear Sir, Please find the proof as an	
	attachment. I sincerely request you to include a co-author (Dr.	

	Kauser Usman) as mentioned in the proof. Thank you & Kind	
	regards,	
	Company Editor-in-Chief: I have reviewed the Peer-Review	
	Report, and full text of the manuscript, all of which have met the	
	basic publishing requirements of the World Journal of Diabetes, and	
	the manuscript is conditionally accepted. I have sent the manuscript	
	to the author(s) for its revision according to the Peer-Review Report,	
	Editorial Office's comments and the Criteria for Manuscript	
	Revision by Authors.When revising the manuscript, it is	
	recommended that the author supplement and improve the	
	highlights of the latest cutting-edge research results, thereby further	
	improving the content of the manuscript. To this end, authors are	
	advised to apply PubMed, or a new tool, the RCA, of which data	
	source is PubMed. RCA is a unique artificial intelligence system for	
	citation index evaluation of medical science and life science	
	literature. In it, upon obtaining search results from the keywords	
	entered by the author, "Impact Index Per Article" under "Ranked	
	by" should be selected to find the latest highlight articles, which can	
	then be used to further improve an article under	
	preparation/peer-review/revision. Please visit our RCA database	
	for more information at:	
	https://www.referencecitationanalysis.com/, or visit PubMed at:	
	https://pubmed.ncbi.nlm.nih.gov/.	
3	The fixed headings are copied.	[Y]
4	The title concisely summarizes the main topic of the study and is	[Y]
4	not too long (no more than 18 words). Words such as 'exploration',	[Y]

	'research', 'analysis', 'observation', and 'investigation' are avoided.	
	The title does not start with 'The' and does not include any Arabic	
	numbers or uncommon abbreviations.	
5	A short running title is provided (no more than 6 words).	[Y]
	The authors' full family (sur)names and full/abbreviated first	
6	names are listed on the title page and are consistent with those	[Y]
	listed in the signed BPG Copyright License Agreement form.	
	The 'Author contributions' passage describes the specific	
	contribution(s) made by each author. The author's names are listed	
	in the following format: full family (sur)name followed by	
	abbreviated first and middles names.	
	e.g., "Wang CL and Liang L contributed equally to this work; Wang	
7	CL, Liang L, Fu JF, Zou CC, Hong F and Wu XM designed the	[Y]
	research study; Wang CL, Zou CC, Hong F and Wu XM performed	
	the research; Xue JZ and Lu JR contributed new reagents and	
	analytic tools; Wang CL, Liang L and Fu JF analyzed the data; and	
	Wang CL, Liang L and Fu JF wrote the manuscript. All authors	
	have read and approve the final manuscript."	
	The 'Supported by' statement describes the source(s) of financial	
8	support and includes the corresponding identification number(s)	[N]
	and program ID(s) if available, and contains no spelling errors.	
	The 'Corresponding author' passage provides the corresponding	
	author's full first and family (sur)names, abbreviated title (e.g., MD,	
9	PhD), affiliated institute's name and complete postal address	[Y]
	(including zip code) and e-mail (written in all lowercase), and	
	contains no spelling errors.	
	The Manuscript Tracking information (i.e., Received, Peer review	
10	started, First decision, Revised, Accepted, Article in press, and	<b>T N C N</b>
	Published online) are provided along with the corresponding editor	[Y]
	and date for each item, and contain no spelling errors.	
	, , , , , , , , , , , , , , , , , , ,	

Γ		
	The Abstract section is formatted according to the article-specific	
	style (structured $vs$ unstructured) and word count thresholds, as	
	follows:	
	Commentary, Frontier, Diagnostic Advances, Medical Ethics,	
	Minireview, Review, Therapeutics Advances, and Topic Highlight:	
11	Non-structured abstract that is no less than 200 words.	
11	Field of Vision, Case Report and Letter to the Editor:	[Y]
	Non-structured abstract that is no less than 150 words.	
	Research articles: Structured abstract with subsections for AIM (no	
	more than 20 words); METHODS (no less than 80 words); RESULTS	
	(no less than 120 words); and CONCLUSION (no more than 26	
	words).	
	The 'Key words' list provides 5-10 keywords that reflect the main	
12	content of the study. The first letter of each keyword is capitalized,	[Y]
	and each keyword is separated by a semicolon.	
	The "citation" contains authors' names and manuscript title. The	
	name of the first author should be typed in bold letters; the family	
	(sur) name of all authors should be typed with the first letter	
	capitalized, followed by their abbreviated first and middle initials.	
13	For example, an article by Jae Moon Yoon, Ki Young Son, Chun Sick	[Y]
	Eom, Daniel Durrance, Sang Min Park will be written as Yoon JM,	
	Son KY, Eom CS, Durrance D, Park SM. Pre-existing diabetes	
14	mellitus increases the risk of gastric cancer: A meta-analysis. World J	
	<i>Gastroenterol</i> 2019; In press	
	The 'Core tip' provides a summary (less than 100 words) of the	
	study that outlines the most innovative and important arguments	
	and core contents of the paper and will serve to effectively attract	[Y]
	readers.	
	1	

15The 'INTRODUCTION' section clearly describes the relevant background information for the study. Only the most relevant and current (within the past 5 years) literature is cited, with the exception of rare instances of seminal literature citations. All technical terms and/or abbreviations given upon first appearance in the text and the abbreviation presented in parentheses [ <i>i.e.</i> , "computed tomography (CT)"]. First-person pronouns ( <i>e.g.</i> , T, 'we') are used appropriately to clearly indicate the work performed by the author(s). When weaknesses of previous studies are described in the text to highlight the innovations related to the current study, the information is presented carefully.[N]16The 'MATERIALS AND METHODS' section clearly and accurately describes all materials and methods used to obtain the data presented in the article and is adequate for a reader to repeat the study.[N]17The 'RESULTS' section concisely describes the observational and experimental results. Representative data and data that have scientific significance are emphasized. Data is presented in either the text, a table or figure ( <i>i.e.</i> , chart, diagram, graph or image), but is not repeated among each. Information presented in the tables and figures clearly describes the trends, meaning, and inferences. Results described in textual form are accurate, concise and clear.[N]18Statistical symbols are accurate. Statistical significance is expressed as *P < 0.05, *P < 0.01 (P > 0.05 usually does not need to be denoted). If there are other series of P values, *P < 0.05 and 4P < 0.01 are used, and a third series of P values is expressed as *P < 0.05 and tP < 0.01. Statistical data is expressed as mean ± SD or mean ± SE.[N]			
15current (within the past 5 years) literature is cited, with the exception of rare instances of seminal literature citations. All technical terms and/or abbreviations are explained and/or defined, with the full name of abbreviation presented in parentheses [ <i>i.e.</i> , "computed tomography (CT)"]. First-person pronouns ( <i>e.g.</i> , T, 'we') are used appropriately to clearly indicate the work performed by the author(s). When weaknesses of previous studies are described in the text to highlight the innovations related to the current study, the information is presented carefully.[N]16The 'MATERIALS AND METHODS' section clearly and accurately describes all materials and methods used to obtain the data presented in the article and is adequate for a reader to repeat the study.[N]17The 'RESULTS' section concisely describes the observational and experimental results. Representative data and data that have scientific significance are emphasized. Data is presented in either the text, a table or figure ( <i>i.e.</i> , chart, diagram, graph or image), but is not repeated among each. Information presented in the tables and figures clearly describes the trends, meaning, and inferences. Results described in textual form are accurate, concise and clear.[N]18If there are other series of <i>P</i> values, <i>cP</i> < 0.05 and <i>4P</i> < 0.01 are used, and a third series of <i>P</i> values, <i>cP</i> < 0.05 and <i>4P</i> < 0.01.

Statistical significance is expressed as ${}^{a}P < 0.05$ , ${}^{b}P < 0.01$ ( $P > 0.05$ usually does not need to be denoted).18If there are other series of $P$ values, ${}^{c}P < 0.05$ and ${}^{d}P < 0.01$ are used, and a third series of $P$ values is expressed as ${}^{e}P < 0.05$ and ${}^{f}P < 0.01$ .		figures clearly describes the trends, meaning, and inferences.	
18If there are other series of $P$ values, $cP < 0.05$ and $dP < 0.01$ are used, and a third series of $P$ values is expressed as $eP < 0.05$ and $fP < 0.01$ .[N]		Results described in textual form are accurate, concise and clear.	
18If there are other series of $P$ values, ${}^{\circ}P < 0.05$ and ${}^{d}P < 0.01$ are used,[N]and a third series of $P$ values is expressed as ${}^{\circ}P < 0.05$ and ${}^{t}P < 0.01$ .	18	Statistical symbols are accurate. Statistical significance is expressed	
and a third series of <i>P</i> values is expressed as ${}^{e}P < 0.05$ and ${}^{f}P < 0.01$ .		as ${}^{a}P < 0.05$ , ${}^{b}P < 0.01$ ( $P > 0.05$ usually does not need to be denoted).	
		If there are other series of <i>P</i> values, $^{c}P < 0.05$ and $^{d}P < 0.01$ are used,	[N]
Statistical data is expressed as mean $\pm$ SD or mean $\pm$ SE.		and a third series of <i>P</i> values is expressed as $^{e}P < 0.05$ and $^{f}P < 0.01$ .	
		Statistical data is expressed as mean $\pm$ SD or mean $\pm$ SE.	

	The 'DISCUSSION' section (1) describes the main purpose and	
10	hypothesis of the study; (2) summarizes the most important results;	
	(3) illustrates and explains the results (but does not simply repeat	
	the data) and draws conclusions or inferences based on the results;	INI 1
19	(4) points out the limitations of the study and their impact on the	[N ]
	results, as well as proposes further advice on future research	
	topic(s) or direction(s); and (5) describes the theoretical significance	
	and practical value of the findings.	
	The 'ACKNOWLEDGEMENTS' section expresses gratitude to any	
	individuals or organizations for technical support (i.e., providing	
20	instrumentation, equipment or experimental materials, and/or	
20	assistance in experimental work), non-technical services (i.e., useful	[N]
	inspiration, suggestions, guidance, or review), and/or any other	
	auxiliary work.	
01	The 'ARTICLE HIGHLIGHTS' section provides comments for	
21	original articles in accordance with the specified format.	[N]
	The 'REFERENCES' section lists the references in the Vancouver	
	style. This style uses Arabic numeral in-text citations based on the	
	order of the first appearance of a source in the text. For citations	
	where the author's name is indicated in the text, a superscript	
	number should be placed following the name ( <i>i.e.,</i> "Pang <i>et al</i> "). For	
	citations where no author is indicated, a superscript number should	
22	be placed at the end of the sentence. Respective examples are: " $Ma^{[1]}$	[Y]
	reported", "Pan et al <sup>[2-5]</sup> indicated"; "PCR has a high	
	sensitivity <sup>[6,9]</sup> ." No superscript numbers are used when the	
	reference number is described in the text; for example, "The	
	experimental method used has been described in reference [8]." The	
	style of reference citations in tables is the same as that in the text	
	( <i>e.g.,</i> Pan <i>et al</i> <sup>[2-5]</sup> , please see reference [8]).	

	Journal references have been verified to ensure that there are no	
	duplicate references and that the PMID numbers are correct. For	
	references not yet included in PubMed: the name of Chinese	
23	journals is spelled out using Chinese Pinyin, with the first letter of	
25	each word capitalized (e.g., Shijie Huaren Xiaohua Zazhi); the name of	[Y]
	journals in other languages are listed according to indexing	
	information retrieved from Google. Book references are presented	
	with all the information relevant to the electronic version.	
	The number of cited references is appropriate for the article type, as	
	follows:	
24	<u>Commentary:</u> no less than 50;	
24	<u>Review:</u> no less than 100;	[Y]
	<u>Article:</u> no less than 30/26;	
	Case Report and Letter to the Editor: no less than 1.	
	The ethics-related statements are provided in accordance with the	
25	manuscript type (e.g., Manuscript NoInstitutional review board	[Y]
	statement, Manuscript NoAnimal care and use statement, etc.).	
	The names of the peer reviewers and the scientific editor are present	
26	at the end of the paper (e.g., P-Reviewer: Hugot D S-Editor: Wang	[Y]
	JL).	
	The order and numerical labeling of tables and figures is consistent	
	with their appearance and presentation in the text. Symbols in	
27	tables (e.g., +, -, $\times$ , $\div$ , *) correctly correspond to the definitions in the	
	footnotes. Only one legend is provided for each multi-panel figure	
	consisting of color graphs, black and white graphs, or line graphs	[Y]
	that depicts data of the same theme. For example: Figure 1	
	Pathological changes in atrophic gastritis tissue before and after	
	treatment. A:; B:; C:; D:; E:; F:	
28	Split pictures include flow charts, line graphs, histograms, and	[Y]
20	graphs including text. Unsplit pictures include meta-analysis	

	diagrams, PCR amplification curves, and survival curves.	
	The author(s) highlighted the changes made to the manuscript	
29		[Y]
	according to the peer-reviewers' comments.	
30	The responses to the peer-reviewers' comments are consistent with	[Y]
	the changes made to the manuscript.	
	The revised manuscript is provided (file name: Manuscript	
	NoReview; e.g., 870- Review).	
31	The letter of peer-reviewers' comments is provided (file name:	[Y]
	Manuscript NoPeer-review(s); <i>e.g.</i> , 870-Peer-review(s)).	[- ]
	The response letter is provided (file name: Manuscript	
	NoAnswering reviewers; <i>e.g.</i> , 870-Answering reviewers).	
	The related ethics and relevant documents are provided, such as (1)	
	Approved grant application form(s) or funding agency copy of any	
	approval document(s) (file name: Manuscript NoGrant application	
	form(s)); (2) Biostatistics review certificate (file name: Manuscript	
	NoBiostatistics statement); (3) Conflict-of-interest statement (file	
	name: Manuscript NoConflict-of-interest statement); (4) Clinical	
	trial registration statement (file name: Manuscript NoClinical trial	
32	registration statement); (5) Institutional review board approval form	[Y]
	or document (file name: Manuscript NoInstitutional review board	
	statement); (6) Institutional animal care and use committee	
	approval form or document (file name: Manuscript	
	NoInstitutional animal care and use committee statement), and (7)	
	Signed informed consent form(s) or document(s) (file name:	
	Manuscript NoInformed consent statement).	
	All authors signed the BPG Copyright license agreement form (file	
33	name: Manuscript NoCopyright license agreement; <i>e.g.</i> ,	[Y]
	870-Copyright license agreement).	
	The language certificate provided by authors who are non-native	
34	speakers of English meets the BPG requirements (file name:	[Y]
	speakers of English meets the DIG requirements (me hame.	

	Manuscript NoLanguage certificate; <i>e.g.</i> , 870-Language certificate).	
35	The photos licensed in the Agreement for Use of Personal Photos	
	are consistent with those in the paper (file name: Manuscript	[N]
	NoAgreement for use of personal photos; e.g., 870-Agreement for	1.57.1
	use of personal photos).	
	This document (Checklist of Responsibilities for Scientific Editors)	
36	has been saved under the file name: manuscript NoScientific	[Y]
	editor work list (e.g., 870-Scientific editor work list).	
	A CrossCheck investigation (an effective tool for detecting unoriginal	
	content, enabling our editors to preserve the journal's integrity and	
	the authors' copyright) has been performed for the manuscript via	
	the website: http://www.ithenticate.com/. The results document	
	contains the following information for the manuscript: "Name of	
37	journal", "Manuscript No.", "Columns", "Title" and "Author list".	[Y]
	The Figure of the CrossCheck results is saved in JPEG format (.jpg) at	
	1440 $\times$ 680 pixel resolution. The PDF of the <i>CrossCheck</i> results has	
	been saved under the file name: manuscript No CrossCheck report	
	(e.g., 870-CrossCheck report). The Google searches have also been	
	performed to further ensure publication of original content.	
	The text of the manuscript is typed in Book Antiqua font, 12 pt, with	
38	1.5 line spacing.	[Y]
	The primary responsibilities of our scientific editors include carefull	y checking the
Responsibilities of scientific editors	entire manuscript and all accompanying materials for (1) error	e in spelling
	entire manuscript and all accompanying materials for: (1) errors in spelling,	
	grammar, punctuation and wording; (2) suitability of tables, figures, f	igure data and
	legends; (3) accurate and appropriate presentation of symbols (e.g. +,	-, ×, ÷, %, *) in
culturs	tables and figures; and (4) complete and comprehensive revision of t	he manuscript
	according to the reviewers' comments.	

	Manuscript reception and registration-Initial review by scientific editor-Peer	
	review $\rightarrow$ End of peer review $\rightarrow$ First round of meeting evaluation $\rightarrow$ To be	
	accepted $\rightarrow$ Revision by the author(s) $\rightarrow$ Second round of meeting evaluation $\rightarrow$ To be	
	accepted/revised/rejected $\rightarrow$ Final review by the Editor-in-Chief (final quality	
Publication	control for academic content and language quality) $\rightarrow$ Final acceptance and charging	
process	of publication fee $\rightarrow$ Language editing $\rightarrow$ Production $\rightarrow$ Proofreading by scientific	
	editor→Proofreading by deputy editor→Final review by Editor-in-Chief→Release	
	of online open-access papers in electronic form on the BPG website $\rightarrow$ Release of	
	online papers on PubMed Central→Delivery of high-quality PDF reprints to the	
	author(s) $\rightarrow$ End of the publication process.	
	<sup>1</sup> Ethics and Relevant Document Handling Time	
	For the checking of the ethics and relevant document, the editing fee should be	
	calculated independently to the Scientific Editor. The handling time of the ethics	
Notes	and relevant documents for clinical and basic researches is calculated as 3 hours, for	
Notes	case reports and other types of manuscript is calculated as 2 hours.	
	If any errors are found in ethics and relevant document after a manuscript is	
	published, the Scientific Editor's one day Welfare provided by the Baishideng	
	Publishing Group will be deducted.
