

ANSWERING REVIEWERS

Mar 31, 2014

Dear Editor,

Please find enclosed the edited manuscript in Word format (file name: 9162-manuscript.doc).

Title: Meckel's diverticulum incarcerated in a transmesocolic internal hernia

Author: Si-yuan Wu, Meng-Hsing Ho, Sheng-Der Hsu

Name of Journal: *World Journal of Gastroenterology*

ESPS Manuscript NO: 9162

The manuscript has been improved according to the suggestions of reviewers:

1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer

(1) The description of pathologic findings in case section and figure legends had been corrected. Here we have to state that our patient did not have heterotrophic metaplasia of mucosa. So a pathologic picture with high magnification view is added.

(2) The CT findings of internal hernia are described. It focused on the allocation of herniated intestine which helps to differentiate all types of internal hernia. The section ended in transmesenteric hernia which the patient had.

3 References and typesetting were corrected

Thank you again for publishing our manuscript in the *World Journal of Gastroenterology*.

Sincerely yours,

Si-Yuan Wu, MD
