The manuscript has been improved according to the suggestions of reviewers:
1 Format has been updated

2 Revision has been made according to the suggestions of the reviewer
  (1)   Please write a summary of less than 100 words to outline the most innovative and important arguments and core contents in your paper to attract readers.
        → We have added the following paragraph of the core tip of our document.
        Neonatal gastric perforation(NGP) is extremely rare and only few cases have been reported to date. We present nine cases of NGP treated in a single center and prognostic factors and etiologies were analyzed. Early detection and prompt surgical intervention is essential for better outcome in NGP.
  (2)   Please put the reference numbers in square brackets in superscript at the end of ciatation content or after the cited author's name. Please check across the text.
        → We have changed all the reference numbers in square brackets in superscript.
  (3)   Please delete et al, and list all authors' names. Thank you!
